Chapter 1 - Statement of Legislative Intent

21-00 - GENERAL PURPOSES OF RESIDENCE DISTRICTS

LAST AMENDED

2/26/1967

The Residence Districts established in this Resolution are designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) To provide sufficient space in appropriate locations for residential development to meet the housing needs of the City's present and expected future population, with due allowance for the need for a choice of sites.
- (b) To protect residential areas against fire, explosions, toxic and noxious matter, radiation, and other hazards, and against offensive noise, vibration, smoke and other particulate matter, odorous matter, heat, humidity, glare, and other objectionable influences.
- (c) To protect residential areas, as far as possible, against heavy traffic and against through traffic of all kinds.
- (d) To protect residential areas against congestion, as far as possible, by regulating the density of population and the bulk of buildings in relation to the land around them and to one another, and by providing for off-street parking spaces; to require the provision of open space in residential areas wherever practicable; and to encourage the provision of additional open space by permitting moderately higher bulk and density with better standards of open space, in order to open up residential areas to light and air, to provide open areas for rest and recreation, and to break the monotony of continuous building bulk, and thereby to provide a more desirable environment for urban living in a congested metropolitan area.
- (e) To protect the character of certain designated areas of historic and architectural interest, where the scale of building development is important, by limitations on the height of buildings.
- (f) To provide for access of light and air to windows and for privacy, as far as possible, by controls over the spacing and height of buildings and other structures.
- (g) To provide appropriate space for those educational, religious, recreational, health and similar facilities which serve the needs of the nearby residents, which generally perform their own activities more effectively in a residential environment, and which do not create objectionable influences.
- (h) To provide freedom of architectural design, in order to encourage the development of more attractive and economic building forms.
- (i) To promote the most desirable use of land and direction of building development in accord with a well-considered plan, to promote stability of residential development, to protect the character of the district and its peculiar suitability for particular uses, to conserve the value of land and buildings and to protect the City's tax revenues.

21-10 - PURPOSES OF SPECIFIC RESIDENCE DISTRICTS

LAST AMENDED

12/15/1961

21-11 - R1 and R2 — Single-Family Detached Residence Districts

LAST AMENDED
12/5/2024

These districts are designed to provide a suitable open character for single-family detached dwellings at low densities, as well as all types of residences in appropriate locations. These districts also include community facilities and open uses that serve the residents of these districts or benefit from an open residential environment.

21-12 - R3A, R3X and R4A – Detached Residence Districts

LAST AMENDED
12/5/2024

These districts are designed to provide for single- or two-family detached dwellings on zoning lots of specified lot widths, as well as all types of residences in appropriate locations. R3A Districts also permit zero lot line buildings. These districts also include community facilities and open uses that serve the residents of these districts or benefit from a residential environment.

21-13 - R3-1 and R4-1 – Detached and Semi-Detached Residence Districts

LAST AMENDED
12/5/2024

These districts are designed to provide for single- or two-family detached or semi-detached dwellings, as well as all types of residences in appropriate locations. R4-1 Districts also permit zero lot line buildings. These districts also include community facilities and open uses that serve the residents of these districts or benefit from a residential environment.

21-14 - R3-2, R4, R4B, R5, R6, R7, R8, R9, R10, R11 and R12 – General Residence Districts

LAST AMENDED
12/5/2024

These districts are designed to provide for all types of residential buildings, in order to permit a broad range of housing types, with appropriate standards for each district on density, open space, and spacing of buildings. However, R4B Districts are limited to single- or two-family dwellings, , as well as all types of residences in appropriate locations. The various districts are mapped in relation to a desirable future residential density pattern, with emphasis on accessibility to transportation facilities and to various community facilities, and upon the character of existing development. These districts also include community facilities and open uses which serve the residents of these districts or benefit from a residential environment.

Unless otherwise specified, the regulations applicable to R10 Districts shall apply to R10H Districts.

Chapter 2 - Use Regulations

22-00 - GENERAL PROVISIONS

LAST AMENDED

12/5/2024

In order to carry out the purposes and provisions of this Resolution, the #uses# within #buildings or other structures# as well as the open #uses# of #zoning lots#, or portions thereof, have been classified and combined into 10 separate Use Groups with similar characteristics. For the purposes of establishing permitted #uses# in this Resolution, references to permitted #uses# in the Use Groups, or any sub-categories therein, shall include all #accessory# #uses# thereto. Use Groups I, II, III, IV, V, VI, VII and VIII, are permitted in #Residence Districts# subject to the provisions of the following Sections:

- (a) Sections [22-11](#) (Use Group I – Agriculture and Open Uses) through [22-18](#) (Use Group VIII – Recreation, Entertainment and Assembly Spaces), inclusive, which establish general #use# allowances in Use Groups I through VIII, including each #use# listed separately therein, by #Residence District#, and additional provisions for certain #uses# where applicable.
- (b) Section [22-20](#) (SIGN REGULATIONS), inclusive, which sets forth regulations for permitted #signs#.

The #use# provisions of this Chapter may be modified or superseded by special rules for certain areas in Article I (General Provisions), Article VI (Special Regulations Applicable to Certain Areas), and through Special Purpose Districts.

22-10 - USE ALLOWANCES

LAST AMENDED

6/6/2024

The provisions of Sections [22-11](#) (Use Group I – Agriculture and Open Uses) through [22-18](#) (Use Group VIII – Recreation, Entertainment and Assembly Spaces) establish #use# allowances by Use Group. A brief statement is inserted at the start of each Section to describe and clarify the basic characteristics of that Use Group. For Use Groups I through IV, #use# allowances by zoning district are summarized in Use Group tables. For each #use# and zoning district, the tables contain up to two levels of notation in a particular cell:

- (a) The top level will always contain a symbol and denotes:
 - (1) permitted as-of-right (“●”);
 - (2) permitted as-of-right in some instances, but with broad #use# limitations on as-of-right applicability, either by district or geographic restrictions (“◆”);
 - (3) allowed by special permit (“○”) of the Board of Standards and Appeals or the City Planning Commission; or
 - (4) not permitted in the district (“–”).
- (b) The second level may or may not be present, depending on the #use# and the zoning district. Where present, the table denotes one or more allowances or restrictions on the as-of-right #use#. Specifically, they denote where the following apply:
 - (1) size restrictions (“S”), including establishment or #lot area# size limitations or person capacities; or
 - (2) additional conditions (“P”), including environmental standards or other measures other than size restrictions.

Such notations are illustrated in the following diagram:

For a given zoning district, #use# allowances are denoted as permitted as-of-right (“●”), with limited applicability (“◆”), by special permit (“○”) or not permitted in such district (“-”)

Additional conditions and requirements are grouped below #use# allowances. Such provisions include size restrictions (“S”) and additional conditions (“P”)

Where a #use# is permitted and no second level symbology is included, the #use# is permitted without size restrictions, additional conditions, or exemptions from enclosure requirements.

Use Group tables, except in Section [22-12](#) (Use Group II – Residences), also show the parking requirement category, denoted as “PRC”, for the applicable #use#, where applicable. PRC letters A through G refer to the classification of permitted non-residential #uses# to determine required accessory off-street parking spaces as set forth in the table in Section [25-31](#) (General Provisions). Subcategories within, denoted by number suffices, indicate variations of the same parking category. Where the PRC for a #use# is denoted as “N/A”, no parking requirement applies except as specified in other provisions of this Resolution.

Subsections following the table for a particular Use Group contain specific provisions applicable to certain #uses#, including size restrictions or additional conditions. Other subsections contain references for #uses# permitted by special permits of the Board of Standards and Appeals or the City Planning Commission, or provisions for #uses# where two PRCs are assigned.

The following diagram provides an illustrative example of how such provisions are notated across zoning districts for a given #use#:

In all districts, #rear yard equivalents# shall be provided on #through lots# in accordance with this Section, except as otherwise provided pursuant to the provisions of Section [23-34](#), inclusive.

(a) Exceptions

No #rear yard equivalent# regulations shall apply:

- (1) to any #through lots# that extend less than 110 feet in maximum depth from #street# to #street#;
- (2) to #large sites#;
- (3) to any #zoning lot# that includes a #through lot# portion that is contiguous on one side to two #corner lot# portions and such #zoning lot# occupies the entire #block# frontage of a #street#; or
- (4) to any #zoning lot# occupying an entire #block#.

(b) Depth requirement

- (1) For standard lots

On any #through lot# that is 190 feet or more in maximum depth from #street# to #street#, for #buildings# or portions thereof at or below a height of 75 feet, a #rear yard equivalent# consisting of an open area with a minimum depth of 40 feet shall be provided, and above a height of 75 feet, where permitted, a #rear yard equivalent# of 60 feet shall be provided.

- (2) For shallow lots

The depth of a #rear yard equivalent# may be reduced where a #through lot# is less than 190 feet deep at any point, and the shallow lot condition was in existence on December 15, 1961, and, subsequently, such shallow lot condition has neither increased nor decreased in depth.

For such shallow #through lots#, or portions thereof, the depth of a required #rear yard equivalent# set forth for standard #through lots# in this Section, may be reduced by one foot by which the depth of a #zoning lot#, or portion thereof, is less than 190 feet. However, in no event shall the minimum depth of a #required yard#, or portion thereof, be reduced to less than 20 feet.

(c) Location requirement

- (1) Standard location

A #rear yard equivalent# shall be provided midway, or within 10 feet of being midway, between the two #street lines# upon which such #through lot# fronts.

- (2) Alternative location allowances

Alternatively, for #zoning lots# utilizing the height and setback provisions for eligible sites in Section [23-434](#), the tower regulations of Section [23-435](#), or other height and setback provisions of this Resolution that modify or supersede the underlying provisions for R10 Districts without a letter suffix, or for shallow lots eligible for the provisions of paragraph (b)(2) of this Section, the following options may be applied:

- (i) open areas adjoining and extending along the full length of either or both #street lines#, where the combined depth of such open areas is equivalent to the depth of the required #rear yard equivalent#;
- (ii) open areas adjoining and extending along the full length of each #side lot line# with a minimum width equivalent to half of the required #rear yard equivalent#, as measured perpendicular from each #side lot

line#. However, the width of such open area along one #side lot line# may be decreased provided that a corresponding increase in width is made along the other #side lot line# and further provided that any open area shall have a minimum width of five feet. The allowances for permitted obstructions in any #yard# or #rear yard equivalent# set forth in Sections [23-311](#) and [23-312](#) shall be permitted in such open areas.

Any such #rear yard equivalent# shall be unobstructed from its lowest level to the sky, except as provided in Section [23-341](#) (Permitted obstructions in required yards or rear yard equivalents).

In all districts, as indicated, the #rear yard# requirements set forth in Section [23-342](#) (Rear yard requirements) and the #rear yard equivalent# requirements of Section [23-343](#) (Rear yard equivalent requirements) shall be modified as set forth in this Section.

- (a) Within one hundred feet of corners

In the districts indicated, no #rear yard# shall be required within 100 feet of the point of intersection of two #street lines# intersecting at an angle of 135 degrees or less.

- (b) Along #short dimension of a block#

In the districts indicated, whenever a #front lot line# of a #zoning lot# coincides with the #street line# of the #short dimension of a block#, no #rear yard# shall be required within 100 feet of such #street line#

- (c) Beyond one hundred feet of a #street line#

In all districts, as indicated, for #interior# or #through lot# portions of #corner lots#, and for #zoning lots# bounded by two or more #streets# that are neither #corner lots# nor #through lots#, the portion of a #side lot line# beyond 100 feet of the #street line# that it intersects shall be considered a #rear lot line# and the following rules shall apply along such #rear lot line#:

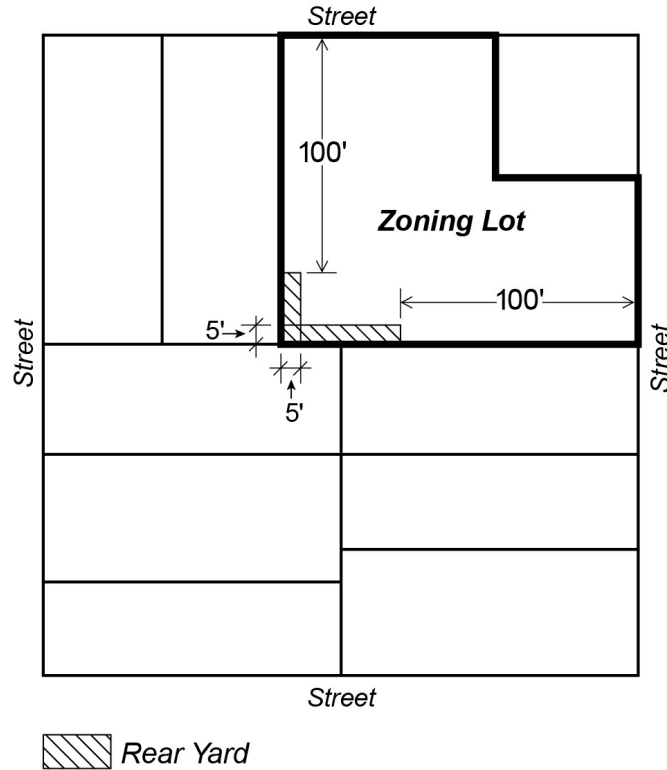

- (1) In all districts, a #rear yard# shall be provided in accordance with Section [23-342](#) (Rear yard requirements), where such #rear lot line# coincides with a #rear lot line# of an adjoining #zoning lot#.

CORNER LOT

- (2) In R1 through R5 Districts, a #rear yard# with a minimum depth of five feet shall be provided where such #rear lot line# coincides with a #side lot line# of an adjoining #zoning lot#.

**ZONING LOT BOUNDED BY TWO OR MORE STREETS
(NEITHER A CORNER LOT NOR A THROUGH LOT)**

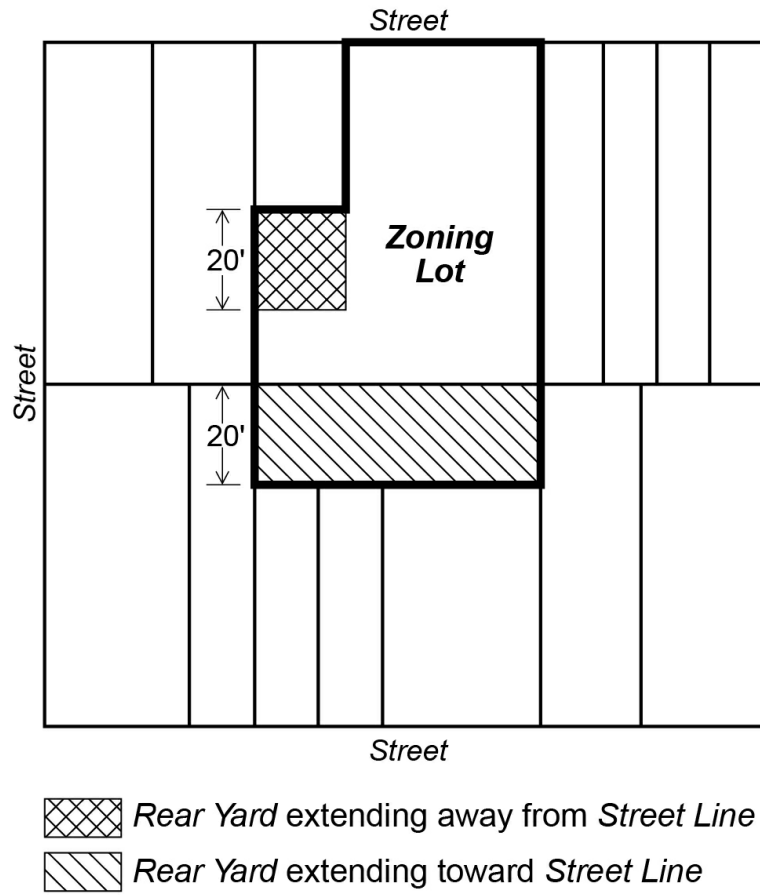

- (3) In R6 through R12 Districts, no #rear yard# shall be required where such #rear lot line# coincides with a #side lot line# of an adjoining #zoning lot#.

- (d) For zoning lots with multiple #rear lot lines#

In all districts, as indicated, for #zoning lots# with multiple #rear lot lines#, if a #rear yard# extends from a #rear lot line# away from the #street line# which is used to determine such #rear lot line#, the following rules shall apply along such #rear lot line#:

- (1) In all districts, where any such #rear lot line# coincides with the #rear lot line# of an adjoining #zoning lot#, a #rear yard# shall be provided in accordance with Section [23-342](#) (Rear yard requirements).

- (3) In R6 through R12 Districts, no #rear yard# shall be required where such #rear lot line# coincides with a #side lot line# of an adjoining #zoning lot#.
- (4) In all districts, for portions of #through lots# that have multiple #rear lot lines# and such portions are not subject to #interior lot# regulations, the #street line# bounding the #zoning lot# closest to such #rear lot line# shall be used to determine compliance with this Section.

In the districts indicated, the maximum #lot coverage# set forth in Section [23-361](#) (Maximum lot coverage in R1 through R5 Districts) or [23-362](#) (Maximum lot coverage in R6 through R12 Districts), as applicable, may be increased in accordance with the provisions of this Section.

(a) Shallow #zoning lots#

For #zoning lots# eligible for the #rear yard# modifications for shallow #interior lots# set forth in Section [23-342](#) (Rear yard requirements) or the #rear yard equivalent# modifications for shallow #through lots# set forth in Section [23-343](#) (Rear yard equivalent requirements), the maximum #lot coverage# of such #zoning lot#, or portion thereof, may be increased by one percent for every five feet the depth of such #zoning lot#, or portion thereof, is less than 95 feet for #interior lots# or 190 feet for #through lots#. Where the #front lot line# or #rear lot line# of a #zoning lot# intersects a #side lot line# at an angle other than 90 degrees, the depth of such #zoning lot#, or portion thereof, shall be measured at the midpoint of such irregularly angled #lot line#.

In no event shall the maximum #lot coverage# of an #interior lot# or #through lot# exceed 90 percent. Shallow portions of a #zoning lot# may exceed such maximum, so long as the adjusted maximum #lot coverage# complies with such maximum.

23-371 - Standard minimum distance between buildings

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10 R11 R12

In all districts, as indicated, the minimum distance between the portion of a #building# containing #residences# and any other #building# on the same #zoning lot# shall be as provided in this Section.

For the purpose of this Section, #abutting# #buildings# on a single #zoning lot# may be considered a single #building#. However, if two or more portions of a #building# are not connected or not #abutting# at a particular level, such separated portions shall comply with the applicable provisions of this Section. In applying such provisions, the height of such separated portions shall be measured from the roof of the connecting or #abutting# portion of such #building#, as applicable, instead of from the #base plane#.

(a) Exceptions

The provisions of this Section shall not apply to:

- #buildings# that are separated from each other by a #rear yard equivalent#; or
- space between a #single-family#, #two-family#, or three-family #residence# and a garage #accessory# thereto.

(b) For #single-# and #two-family residences#

For #buildings# with two or fewer #dwelling units#, the required minimum distance between any such #residences# and any other #building# with two or fewer #dwelling units# on the same #zoning lot#, or a non-#residential# #building# on the same #zoning lot# shall vary according to the height of such #buildings#. Such minimum distance shall be measured perpendicular to the #building# wall or window, as applicable. However, for #buildings# with two or fewer #dwelling units#, the required minimum distance between any such #residences# and an #ancillary dwelling unit# on the same #zoning lot# shall be 10 feet.

For #buildings# with two or fewer #dwelling units#, the required minimum distance between any such #residences# and a #building# with three or more #dwelling units# on the same #zoning lot# shall be subject to the provisions of paragraph (c) of this Section.

		Maximum #Building# Height above #Base Plane# or #Curb Level#, as Applicable (in feet)		
		35 or less	Between 35 and 50	Over 50
Minimum distance	15	20	30	

(c) For #buildings# that contain three or more #dwelling units#

The minimum distance between a #building# containing three or more #dwelling units# and any other #building# on the #zoning lot# shall be applied in accordance with the provisions of this Section. Where two or more portions of a

#building# are separated completely from one another at a particular level above grade, such separated portions shall comply with paragraph (c)(1) of this Section. Where there are multiple #buildings# on a single #zoning lot# that do not connect at any level, such #buildings# shall comply with paragraph (c)(2) of this Section.

(1) For separated portions of a #building#

The required minimum distance between any separated portion of a #building# containing #dwelling units# shall be as follows:

- (i) where #legally required windows# face onto a separated portion of a #building# at or below a height of 75 feet, the minimum dimension between such separated portions shall not be less than 20 feet, and above a height of 75 feet, where permitted, the minimum dimension shall not be less than 30 feet; and
- (ii) where no #legally required windows# face onto a separated portion of a #building# at or below a height of 75 feet, the minimum dimension between such separated portions shall not be less than 10 feet, and above a height of 75 feet, where permitted, the minimum dimension shall not be less than 15 feet.

(2) Two or more #buildings# on a single #zoning lot#

The minimum distance between two or more #buildings# on the same #zoning lot# that are not connected at any level shall be 40 feet, as measured between the closest points of such #buildings#, for portions of #buildings# lower than 125 feet, as measured from the #base plane# or #curb level#, as applicable.

Portions of such #buildings# higher than 125 feet shall be at least 80 feet apart, as measured between the closest points of such #buildings#. However, such minimum distance need not exceed 40 feet if such portions of #buildings# above a height of 125 feet do not exceed, in aggregate, a #lot coverage# of 40 percent or, for lots of less than 20,000 square feet, the percentage set forth in the table below:

AGGREGATED LOT COVERAGE OF PORTIONS OF BUILDINGS ON A SMALL ZONING LOT

Area of #Zoning Lot# (in square feet)	Maximum Percent of #Coverage#
10,500 or less	50
10,501 to 11,500	49
11,501 to 12,500	48

12,501 to 13,500	47
13,501 to 14,500	46
14,501 to 15,500	45
15,501 to 16,500	44
16,501 to 17,500	43
17,501 to 18,500	42
18,501 to 19,999	41

(d) In addition, the following rules shall apply to:

- (1) any portion of a #building# that qualifies as a #building segment# may be treated as a separate #building# for the purposes of determining the minimum distance required between such #building segment# and another #building# or #building segment#;
- (2) where #buildings# of different heights face each other, the average of the heights of such #buildings# shall determine the minimum distance required between them;
- (3) projections having a maximum height of 25 feet above adjoining grade, a maximum depth of five feet, and an aggregate width not exceeding 25 percent of the #building# wall from which they project, may penetrate the minimum spacing requirements. However, such projections shall not be permitted in open spaces provided pursuant to paragraph (c)(2) of this Section; and
- (4) the obstructions permitted in Section [23-311](#) shall be permitted in such minimum distance.

23-372 - Distance between legally required windows and lot lines

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10 R11 R12

The minimum distance between #legally required windows# and walls or #lot lines# shall be as set forth in this Section.

For the purposes of this Section, #abutting# #buildings# on the same #zoning lot# shall be considered a single #building#.

(a) Exceptions

This Section shall not apply to #legally required windows# in #buildings# containing #residences# with a maximum height of 35 feet, as measured from #base plane#, and with a maximum of three #dwelling units#.

(b) Basic provisions

The minimum distance between a #legally required window# and:

- (1) any wall;

- (3) a #side lot line#, or vertical projection thereof;

shall be 20 feet, measured in a horizontal plane at the sill level of, and perpendicular to, such window for the full width of the rough window opening.

The obstructions permitted for any #yard# set forth in Section [23-311](#) shall be permitted in such minimum distance.

(c) For shallow lots

For #interior lots#, where the depth is less than 95 feet deep at any point, the minimum distance between a #legally required window# and a #rear lot line#, or vertical projection thereof, may be modified to equal the #rear yard# depth required for shallow lots pursuant to the provisions of Section [23-342](#) (Rear yard requirements). However, in no event shall such minimum distance between a #legally required window# and a #rear lot line#, or vertical projection thereof, be less than 10 feet.

(d) Special provisions for R3 through R5 Districts

In R3, R4 and R5 Districts, the minimum dimension between a #legally required window# and a #side lot line# shall be 15 feet. Such 15-foot dimension shall be measured in a horizontal plane perpendicular to the #side lot line# or vertical projection thereof. Furthermore, such area with a 15-foot dimension shall be open from its lowest level to the sky for the entire length of the #side lot line#. Only #accessory# mechanical equipment limited in depth to 18 inches from an exterior wall, chimneys, downspouts, eaves, #qualifying exterior wall thickness#, gutters, open #accessory# off-street parking spaces, ramps for access by people with disabilities, and steps shall be permitted obstructions in such open area, subject to the conditions set forth in Sections [23-311](#) or [23-312](#), provided that such obstructions, not including #qualifying exterior wall thickness# and #accessory# mechanical equipment, will not reduce the minimum width of the open area by more than three feet.

23-411 - General permitted obstructions

LAST AMENDED
12/5/2024

In all #Residence Districts#, the following obstructions shall be permitted to penetrate a maximum height limit or #sky exposure plane#. These allowances are generally common to #Residence#, #Commercial# and #Manufacturing Districts#.

- (a) Awnings and other sun control devices, provided that when located at a level higher than the first #story#, excluding a #basement#, all such awnings and other sun control devices:
 - (1) shall be limited to a maximum projection from a #building# wall of 2 feet, 6 inches, except when located on the first #story# above a setback;
 - (2) shall have solid surfaces that, in aggregate, cover an area no more than 30 percent of the area of the #building# wall (as viewed in elevation) from which they project; and
 - (3) may rise above the permitted #building# height, up to the height of a parapet wall or railing permitted in accordance with this Section. When located on the first #story# above a setback, awnings and other sun control devices shall be limited to a projection of 50 percent of the depth of the required setback, and shall be limited, in

total, to 50 percent of the width of the #building# wall from which they project;

- (b) #Building# columns, having an aggregate width equal to not more than 20 percent of the #aggregate width of street walls# of a #building#, to a depth not exceeding 12 inches, in an #initial setback distance#, optional front open area, or any other required setback distance or open area set forth in the applicable height and setback regulations;
- (c) Chimneys or flues, with a total width not exceeding 10 percent of the #aggregate width of street walls# of a #building# at any level;
- (d) Decks, and other surfaces for recreational activities, not more than 3 feet, 6 inches in height, as measured from the maximum height limit;
- (e) Flagpoles or aerials;
- (f) Parapets, railings, or safety guards, whether applied singly, or in combination, provided that:
 - (1) parapets shall not exceed four feet in height;
 - (2) railings shall not exceed 4 feet, 6 inches in height, and shall be at least 50 percent open for the portion that exceeds four feet in height; and
 - (3) safety guards shall not exceed 10 feet in height and shall be at least 90 percent transparent for the portion that exceeds four feet in height;
- (g) #Qualifying exterior wall thickness#;
- (h) Roof thickness, up to 12 inches, to accommodate the addition of insulation, for #buildings# or portions of #buildings# constructed prior to December 5, 2024. For a #building# that has added roof thickness pursuant to this paragraph, the height of any other permitted obstruction may be measured from the finished level of the roof instead of the maximum height limit or #sky exposure plane#;
- (i) Skylights, clerestories or other daylighting devices, not more than four feet in height, as measured from the maximum height limit. LAST AMENDED

R1 R2 R3A R3X R3-1 R3-2 R4 R4-1 R4A R5A

In the districts indicated, the height and setback regulations for #single-# or #two-family# #detached#, #semi-detached#, or #zero lot line# #buildings or other structures#, where permitted, shall be set forth in this Section.

The perimeter walls of a #building or other structure# are those portions of the outermost walls enclosing the #floor area# within a #building or other structure# at any level and height is measured from the #base plane#. Perimeter walls are subject to setback regulations at a maximum height above the #base plane# of 25 feet.

Above these heights, sloping planes control the maximum height of the #building or other structure# requiring either a setback or a pitched roof. These planes start at the maximum permitted height of the perimeter walls and meet at a ridge line of 35 feet above the #base plane#. The exact locations of these planes are flexible and are determined in the following steps set forth in paragraphs (a) through (g):

- (a) At a height of 35 feet above and parallel to the #base plane#, a plane is projected above the area enclosed by and including the perimeter walls of the #building or other structure#. A second plane (the perimeter wall plane) is projected in the same manner at a height of 25 feet above the #base plane#. (See Figure A)

Figure A

- (b) Each perimeter wall of the #building or other structure# with a horizontal dimension of eight feet or more which projects from an adjacent perimeter wall at least 18 inches may have an apex point directly above it on the 35-foot-high plane. (See Figure B). The location of the apex point is flexible provided it is directly above its perimeter wall and provided a line drawn from the intersection of two perimeter walls to such an apex point does not exceed 80 degrees to the horizontal. An apex point is not required for each qualifying perimeter wall; however, the maximum number of apex points above each such wall is one.

Figure B

- (c) One “ridge line” is extended in a straight line from each apex point along the 35-foot-high plane. Ridge lines which connect two apex points may cross other ridge lines. Otherwise, ridge lines which extend from only one apex point must terminate at a point of intersection with another ridge line. (See Figure C)

Figure C

- (d) Sloping planes are extended in a straight line outward and downward from each ridge line until they intersect the perimeter wall plane. Every sloping plane generated must intersect the perimeter wall plane for the full width of the ridge line from which it extends. (See Figure D). The maximum angle of pitch for any sloping plane may not exceed 80 degrees to the horizontal. Sloping planes extended from ridge lines perpendicular or within 45 degrees of being perpendicular to each other may intersect, in which case the higher plane defines the limit of the envelope. Sloping planes extended from ridge lines parallel or within 45 degrees of being parallel to each other must intersect the perimeter wall plane without intersecting each other.

Figure D

- (e) The perimeter walls are then extended vertically beyond the perimeter wall plane, up to the heights defined by the sloping planes generated in paragraph (d). (See Figure E). The perimeter walls of the #building# or other structure#, the sloping planes and the perimeter wall extensions define the #building# envelope. (See Figure F).

Figure E

Figure F

(f) Special Situations

For convex curved perimeter walls, the #building or other structure# must be within a plane curve tapering uniformly to a vertex located at a height of 35 feet. For concave curved perimeter walls, the #building or other structure# must lie within a plane curve extending from the maximum perimeter wall height to a ridge line parallel to the prolongation of the perimeter wall at the 35-foot level. Such plane curves may not exceed a pitch of 80 degrees in relation to a plane drawn parallel to the #base plane# at the maximum height of the permitted perimeter wall. (See Figure G).

- (2) have a slope, as measured from the #street wall line level# to the #rear wall line level#, of at least five percent to the horizontal;

the reference plane for applying the regulations of this Section may be located up to five feet above the #base plane#.

23-423 - Standard setback regulations

LAST AMENDED

12/5/2024

Where minimum setback regulations are specific for a particular #building# envelope for a particular district, the following shall apply.

At a height not higher than the maximum base height specified for the applicable district, a setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#. Such minimum setbacks may be modified as follows:

- (a) The depth of such required setback may be reduced by one foot for every foot that the #street wall# is located beyond the minimum required #front yard#, but in no event shall a setback of less than seven feet in depth be provided, except as otherwise set forth in this Section. To allow #street wall# articulation, where a #street wall# is divided into different segments and located at varying depths from the #street line#, such permitted setback reduction may be applied to each #street wall# portion separately.
- (b) The depth of such setbacks may include the depth of recesses or #outer courts# in the #street wall# of the #building# base, provided that the aggregate width of any such recessed portion of a #street wall# with a setback less than seven feet, as applicable, does not exceed 30 percent of the #aggregate width of street wall# at any level.
- (c) These setback provisions are optional for any #building# wall that either is located beyond 50 feet of a #street line#, or oriented so that lines drawn perpendicular to it, in plan, would intersect a #street line# at an angle of 65 degrees or less. In the case of an irregular #street line#, the line connecting the most extreme points of intersection shall be deemed to be the #street line#.

In the districts indicated, the applicable #street wall# location provisions of this Section shall apply. Such provisions shall apply to the portion of a #street wall# located below the maximum base height and before the required setback as set forth in Section [23-432](#) (Height and setback requirements).

(a) Line-up rules

In R6B, R7B, and R8B Districts, the #street wall# of a #building# shall be located no closer to the #street line# than the closest #street wall#, or portion thereof, nor further from the #street line# than the furthest #street wall#, or portion thereof, of an existing adjacent #building# on the same or an adjoining #zoning lot# located on the same #street# frontage. Eligible adjacent #buildings# shall be located within 15 feet of the #street line#, within 25 feet of the subject #building#, and have a height that exceeds 35 feet. Where an existing adjacent #building# has multiple #street walls# located at varying depths from the #street line#, the subject #street wall# shall not be located closer to the #street line# than the furthest portion of such existing adjacent #street wall# that is at least five feet in width and extends to at least half the height of the #building#.

(b) Percentage-based rules

For all #buildings# that are not subject to the provisions of paragraph (a), the following shall apply:

- (1) Along #wide streets#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and extend to at least the minimum base height specified in Section [23-432](#), or the height of the #building#, whichever is less. Up to 30 percent of the #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

Up to 30 percent of the #aggregate width of street walls# may be recessed beyond 10 feet of the #street line#, provided that any such recesses deeper than 15 feet are located within an #outer court#.

However, where the #street walls# surrounding the subject #building# are located on a #block# with a #prevailing street wall frontage# that is located further from the #street line# than the applicable provisions of this paragraph, the line-up provisions of paragraph (a) of this Section may be applied.

(c) Modifications for large zoning lots

Notwithstanding the provisions of paragraph (a) or (b) of this Section, for #zoning lots# with a #lot area# of at least

40,000 square feet or for #zoning lots# that occupy an entire #block#, at least 50 percent of the #aggregate width of street walls# shall be located within 15 feet of the #street line# and extend to at least the minimum base height specified in Section [23-432](#), or the height of the #building#, whichever is less.

(d) Articulation allowances

23-733 - Floor area ratios in R9 and R10 Districts

LAST AMENDED
12/5/2024

(a) #Floor area ratios# in R10 Districts

In R10 Districts, the maximum #floor area ratio# on a #zoning lot# shall be 12.0 for #qualifying affordable housing# or #qualifying senior housing# and 10.0 for other #residences#.

(b) Additional #floor area# regulations in R9 and R10 Districts for #buildings# with towers

In R9 and R10 Districts, for #zoning lots# containing a #building# that is #developed# or #enlarged# pursuant to the applicable tower regulations of Section [23-737](#) (Tower regulations), the #floor area# provisions of Section [23-241](#) (Special tower provisions) shall apply.

23-734 - Permitted obstructions in open space

In R6 through R10 Districts without a letter suffix, the obstructions permitted for any #yard# set forth in paragraph (a) of Section [23-311](#) (Permitted obstructions in all yards, courts and open areas), as well as the following obstructions, shall be permitted in any #open space# required on a #zoning lot#. For the purposes of applying such allowances to #open space#, all percentage calculations shall be applied to the area of the #open space# instead of the #yard#:

- (a) balconies, unenclosed, subject to the provisions of Section [23-62](#);
- (b) breezeways;
- (c) driveways, private streets, open #accessory# off-street parking spaces, unenclosed #accessory# bicycle parking spaces or open #accessory# off-street loading berths, provided that the total area occupied by all these items does not exceed 50 percent of the required #open space# on any #zoning lot#;
- (d) #energy infrastructure equipment# and #accessory# mechanical equipment, subject to the requirements set forth in Section [23-312](#) (Additional permitted obstructions generally permitted in all yards);
- (e) greenhouses, non-commercial, #accessory#, limited to one #story# or 15 feet in height above adjoining grade, whichever is less, and limited to an area not exceeding 25 percent of the #open space##;
- (f) parking spaces, off-street, enclosed, #accessory#, provided that the total area occupied by a #building# used for such purposes does not exceed 20 percent of the total required #open space# on the #zoning lot#;
- (g) solar energy systems:
 - (1) on the roof of an #accessory# #building#, limited to 18 inches in height as measured perpendicular to the roof surface; or
 - (2) affixed to solar canopies and located over any #accessory# off-street parking space, provided that the height shall not exceed 15 feet above the level of the adjoining grade;
- (h) steps;
- (i) swimming pools, #accessory#, above-grade structures limited to a height not exceeding eight feet above the level of the #rear yard# or #rear yard equivalent#; or
- (j) fire escapes or planting boxes, provided that no such items project more than six feet into or over such #open space#.

However, any such #open space# that is part of a required #yard#, #rear yard equivalent# or #court# may contain an obstruction listed in this Section only where such obstruction is permitted, pursuant to Sections [23-311](#), [23-312](#), [23-341](#) (Permitted obstructions in required rear yards or rear yard equivalents) or [23-351](#) (Permitted obstructions in courts), as applicable.

23-735 - Special yard, court and other area regulations

For #sky exposure plane buildings#, the provisions of Section [23-30](#), inclusive, shall apply, except that:

- (a) for #through lots#, the alternate location allowances set forth in paragraph (c)(2) of Section [23-343](#) (Rear yard equivalent requirements) may be applied to #rear yard equivalents#;
- (b) the maximum #lot coverages# set forth in Section [23-36](#), inclusive, need not apply; and
- (c) the minimum distance between #buildings# provisions of paragraph (c)(2) of Section [23-371](#), pertaining to two of more #buildings# on the same #zoning lot# that are not connected at any level, shall be modified as follows.

The required minimum distance between the portion of a #building# containing #dwelling units# and any other #building# on the same #zoning lot# shall vary according to the height of such #building# and the particular wall condition and the presence of #legally required windows# in facing #building# walls.

For the purposes of this Section, wall condition shall be defined as follows:

“wall to wall” is a condition where two walls of #buildings# face each other, and neither wall contains a #legally required window#;

“wall to window” is a condition where two walls of #buildings# face each other, and one wall contains a #legally required window# and the other wall does not contain a #legally required window#;

“window to window” is a condition where two walls of #buildings# face each other, and both walls contain a #legally required window#.

Such minimum distance shall be as indicated in the following table:

Wall Condition	Maximum #building# height above #base plane# or #curb level#, as applicable					
		25 feet	35 feet	40 feet	50 feet	Over 50 feet
Wall to wall	40	40	40	40	40	
Wall to window	40	40	40	45	50	
Window to window	40	45	50	55	60	

However, for portions of #buildings# higher than 125 feet, the provisions of Section [23-371](#) shall continue to apply.

- (a) For #interior lots#, and for #through lots#, which shall be treated as two separate #interior lots# of equal depth for the purposes of determining the height limitations of this Section, a height equal to the width of the #street# on which such #street walls# front or 100 feet, whichever is less;
- (b) For #corner lots# bounded by only #narrow streets#, a height equal to the width of the narrowest of such #streets# on which such #street walls# front;

Such new #street walls# may reach the height of such #abutting# #building# or, where there are two #abutting# #buildings# that exceed such heights, such new #street wall# may reach the height of the tallest of such #abutting# #buildings#; or
 - (2) on a #narrow street#, such #street walls# #abut# two existing #buildings# with #street walls# that both exceed the heights permitted. Such new #street walls# may reach the height of the lowest of such #abutting# #buildings#; and
 - (3) such new #street walls# shall be fully contiguous at every level with such #abutting# #street walls#.

- (3) For the purposes of determining the width of a #street wall#:
 - (i) the width shall be the sum of the maximum widths of all #street walls# of a #building# at every level. The width of a #street wall# shall be the length of the #street line# from which, when viewed directly from above, lines perpendicular to the #street line# may be drawn to such #street wall#; and

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10 R11 R12

Where #accessory# off-street parking is required to be maintained for #multiple dwelling residences# pursuant to Section [25-211](#), the number of required #accessory# off-street parking spaces may be calculated pursuant to either paragraph (a) or (b) of this Section.

For the purposes of calculating the number of required parking spaces for any #building# containing #residences#, any fraction of a space 50 percent or greater shall be counted as an additional space, and for the purposes of applying such provisions to #rooming units#, three #rooming units# shall be considered the equivalent of one #dwelling unit#.

Any #accessory# off-street parking spaces serving a #zoning lot# in excess of the number required by this Section shall be considered permitted spaces and shall not be regulated by the provisions of Section [25-20](#), inclusive.

(a) Previously approved applications

The number of required #accessory# off-street parking spaces shall be the number of spaces that were required at the time of the #development#, #enlargement# or #conversion#, as applicable, unless it would no longer be required pursuant to the regulations in effect prior to December 5, 2024. Such calculation may include all applicable parking reductions, waivers, geographically based modifications, or modifications for specific #uses#.

For the purpose of establishing this amount, the Department of Buildings may accept any historical evidence deemed appropriate by the Department of Buildings, such as construction documents, zoning analyses, or other documents submitted as an approved application for a building permit.

Where a #building# was subsequently #enlarged# or #converted# after its #development#, this historical evidence must include materials indicating the most-recent parking requirement in effect for all #dwelling units# on the #zoning lot# prior to December 5, 2024.

(b) Simplified reference table

As an alternative to the method set forth in paragraph (a), the number of required #accessory# off-street parking spaces shall be the number of spaces set forth in this paragraph (b).

The number of required off-street spaces shall be determined by the total number of #dwelling units# on a #zoning lot# existing prior to December 5, 2024 multiplied by the applicable parking requirement in Column A or B, as applicable. However, where the calculation results in a number of parking spaces less than or equal to the number in Column C, no parking spaces shall be required for #residences# on the #zoning lot#.

In all districts, as indicated, for all #accessory# off-street parking spaces, open or enclosed, each 300 square feet of unobstructed standing or maneuvering area shall be considered one parking space, except as follows:

(1) Standard attended facilities

An area of less than 300 square feet, but in no event less than 200 square feet, may be considered as one space, where the layout and design of the parking area are adequate to permit convenient access and maneuvering in accordance with regulations promulgated by the Commissioner of Buildings, or where the developer or applicant for a building permit or certificate of occupancy certifies that such spaces will be fully attended.

In any case where a reduction of the required area per parking space is permitted on the basis of the developer's certification that such spaces will be fully attended, it shall be set forth in the certificate of occupancy that paid attendants employed by the owners or operators of such spaces shall be available to handle the parking and moving of automobiles at all times when such spaces are in use.

(2) Attended facilities with parking lift systems

For portions of an attended parking facility with parking lift systems, each individually lifted tray upon which a vehicle is stored shall be considered one parking space. Any other attended space not on a lifted tray shall be subject to the provisions of paragraph (a)(1) of this Section.

(3) #Automated parking facilities#

For #automated parking facilities#, each tray upon which a vehicle is stored shall constitute one parking space. The term "tray" shall refer to the structural support for vehicle storage in both pallet and non-pallet vehicle

storage systems.

However, auxiliary parking trays in #automated parking facilities# may be exempted from constituting a parking space where the Commissioner of Buildings determines that such auxiliary parking trays are necessary to store and retrieve vehicles for the efficient operation of such #automated parking facility#.

(4) #Single-# and #two-family# #residences#

For #accessory# off-street parking spaces serving #single-# or #two-family# #residences#, an area of less than 300 square feet may be considered as one space.

(c) Minimum size for each parking space

In no event shall the dimensions of any parking stall be less than 18 feet long and 8 feet, 6 inches wide.

Curb cuts on #wide streets#, or additional curb cuts on #narrow streets#, may be allowed, provided the Department of Transportation certifies to the Commissioner of Buildings that such additional curb cuts will not result in conflict between pedestrian and vehicular circulation and will result in a good overall site plan.

(f) Modification of curb cut requirements:

R2X R3 R4 R5 R6 R7 R8 R9 R10 R11 R12

- (1) In the districts indicated, the location and width of curb cuts, as required by the provisions of this Section, may be modified if the Commissioner of Buildings certifies that the specified curb cut locations would require the removal of shade trees maintained by the City of New York. R6 R7 R8 R9 R10 R11 R12

- (2) In the districts indicated, the City Planning Commission may authorize modification of the location and width of curb cuts as required by the provisions of this Section provided that the Commission finds that:
 - (i) the proposed modification does not adversely affect the character of the surrounding area; and
 - (ii) where more than one curb cut is provided, the curb cuts are arranged to foster retention of curbside parking spaces along the #street frontage# of the #zoning lot#.

26-26 - Modification and Waiver Provisions

LAST AMENDED

2/2/2011

- (a) The City Planning Commission may, by authorization, allow modifications to, or waivers of, the requirements of Sections [26-20](#) through [26-27](#), inclusive, provided that:
- (1) such modifications or waivers will enhance the design quality of the #zoning lot#;
 - (2) any decrease in the required width of the paved road bed is in conjunction with a superior parking plan that would not be feasible with a wider road bed; and
 - (3) any decrease in the required width of the paved road bed will result in the preservation of existing natural features or a superior landscaping plan that would not be feasible with a wider road bed.
- No modification or waiver may be granted which would waive or decrease the width of the paved road bed to less than 34 feet.
- (b) The City Planning Commission may, by authorization, allow modifications to, or waivers of, the requirements of Sections [26-20](#) through [26-27](#), inclusive, for #zoning lots# within the #Special South Richmond Development District#, that:
- (1) contain #designated open space# and a portion of the #waterfront esplanade#, where such #zoning lots#:
 - (i) have been granted an authorization pursuant to Section [107-65](#) (Modifications of Existing Topography) within one year prior to February 6, 2002; or
 - (ii) are conditioned upon a restrictive declaration that has received a minor modification by the City Planning Commission; or
 - (2) are located wholly or partially within Area M and have filed an application for an authorization pursuant to Section [107-69](#) (Residential Uses in Area M) within one year prior to February 6, 2002; or
 - (3) have been granted authorizations pursuant to Section [107-64](#) (Removal of Trees) and [107-65](#) and are located on a

#zoning lot# where a change in the City Map has been approved within three years prior to February 6, 2002, and where certified copies of the alteration map for such change in the City Map have not yet been filed in accordance with Section 198, subsection (c), of the New York City Charter, as of February 6, 2002.

In order to authorize such modifications or waivers pursuant to this paragraph, (b), the Commission shall find that such #zoning lots# will be #developed# pursuant to a good site plan, and that adequate access to all #dwelling units#, adequate parking spaces located outside of the roadbed of the #private road#, adequate spacing of all curb cuts and adequate landscaping will be provided.

26-27 - Waiver of Bulk Regulations Within Unimproved Streets

LAST AMENDED

2/2/2011

In R3, R4 and R5 Districts, and in C1 and C2 Districts mapped within R3, R4 and R5 Districts, and in C3 Districts, the City Planning Commission may authorize the waiver of #bulk# regulations for:

- (a) #zoning lots# with #private roads# that access at least 20 #dwelling units# consisting in part of construction within #streets# that are unimproved and for which the Board of Standards and Appeals has granted a permit pursuant to Section 35 of the General City Law; and
- (b) #zoning lots# with #private roads# that access fewer than 20 #dwelling units# consisting in part of construction within #streets# that are unimproved and for which the Board of Standards and Appeals has granted a permit pursuant to Section 35 of the General City Law and where such #zoning lot# has received an authorization pursuant to paragraph (a) of Section [26-26](#);

The Commission may authorize the waiver of #bulk# regulations affected by such #streets# where #buildings# would be #non-complying# absent such waiver, provided the Board of Standards and Appeals has prescribed conditions pursuant to Section 35 of the General City Law which require the #buildings# or portions thereof to be located within the unimproved #streets# to be compliant and conforming to the provisions of this Resolution. Such waivers shall only be as necessary to address #non-compliance# resulting from the location of the #buildings# within and outside the unimproved #streets#.

The Commission shall find that the #private roads# are adequate to serve present and future transportation needs and that, through the grant of such waivers, the #development# complies to the maximum extent feasible with all applicable zoning regulations as if such unimproved #streets# were not mapped, and that the #private road# system results in a good site plan.

26-30 - SPECIAL REQUIREMENTS FOR LOTS WITH PRIVATE ROADS IN LOWER DENSITY GROWTH MANAGEMENT AREAS

LAST AMENDED

2/2/2011

For all #zoning lots# with #buildings# accessed by #private roads# in #lower density growth management areas#, the provisions of Sections [26-20](#) through [26-27](#), inclusive, shall apply. In addition, such regulations are supplemented or superseded in accordance with the provisions of this Section.

- (a) are perpendicular to the roadbed;
- (b) are located on only one side of a #private road# or portion of a #private road#, so that no such spaces are located on opposite sides of the road bed or within 20 feet of being opposite to one another; and
- (c) are within rows of not more than 10 adjacent spaces. Such rows shall be separated one from another by a planting strip at least 18 feet deep and eight feet wide, within which a tree of at least three-inch caliper is planted.

All #private roads# shall be screened from adjoining #zoning lots# by a landscaped strip at least eight feet wide, and all open off-street parking areas with five or more spaces shall be screened from adjoining #zoning lots# by a landscaped strip at least four feet wide. Such landscaped strips shall be densely planted with evergreen shrubs at least four feet high at time of planting, and of a type that may be expected to form a year-round dense screen at least six feet high within three years. Such screening shall be maintained in good condition at all times.

26-34 - Modification and Waiver Provisions

LAST AMENDED

12/5/2024

Except in the Borough of Staten Island, the City Planning Commission may, by authorization, allow modifications to, or waivers of, the requirements of Sections [26-30](#) through [26-33](#), inclusive, provided that the depth of a #rear yard# shall not be less than 15 feet and the depth of a #front yard# shall not be less than five feet. - (b) any reduction in open areas shall be permitted only where the Commission finds that a good site plan has been provided that includes a superior landscaping plan; and
- (c) such modifications will not impair the essential character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

26-40 - STREET TREE PLANTING AND PLANTING STRIP REQUIREMENTS

LAST AMENDED
4/30/2008

26-41 - Street Tree Planting

LAST AMENDED
12/6/2023

In accordance with applicability requirements of underlying district regulations, one #street# tree, pre-existing or newly planted, shall be provided for every 25 feet of #street# frontage of the #zoning lot#. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one tree.

(a) Design criteria

#Street# trees shall be planted along the entire length of along the curb of the #street# adjacent to the #zoning lot#, within:

- (1) tree beds or connected tree beds designed in compliance with standards set forth by the Department of Parks and Recreation; or
- (2) rain gardens designed in compliance with standards set forth by the Department of Environmental Protection.

For #zoning lots# with over 100 feet of #street# frontage, wherever two required #street# tree beds will be separated by less than 25 feet, such tree beds shall be combined and designed as a single continuous tree bed.

The species and caliper of all #street# trees shall be determined by the Department of Parks and Recreation, and all such trees shall be planted in accordance with the #street# tree planting standards of the Department of Parks and Recreation.

(b) Alternate compliance

Where such tree planting would be infeasible adjacent to the #zoning lot#, such trees may be provided in an alternate manner, or waived, using any combination of provisions, as appropriate, set forth in this paragraph (b).

(1) Rain gardens

Where the Department of Parks and Recreation determines that such tree planting would be infeasible, such required #street# tree may be substituted for a rain garden designed in compliance with standards set forth by the Department of Environmental Protection.

(2) Planters

Where the Department of Parks and Recreation or Department of Transportation determines that below-grade infrastructure causes one or more tree planting location to be infeasible, such tree may be provided in permanent planters designed in compliance with standards set forth by the Department of Transportation.

(3) Off-site locations

Where the Department of Parks and Recreation determines that such tree planting would be infeasible, or in historic districts where the Landmarks Preservation Commission determines that such tree planting would not be in character with the historic district, one or more #street# trees may be planted in an alternative off-site location, to be selected by the Department of Parks and Recreation, except that if the Department of Parks and Recreation

determines that no alternative location is available, or if no alternative location is provided within 30 days of an application for a Department of Parks and Recreation permit, such off-site tree shall be waived. Off-site trees shall be planted at alternative locations within:

- (i) an existing empty #street# tree pit or planting strip; or
- (ii) an unpaved area owned by the City of New York.

All such alternative locations shall be within the Community District or one-half mile of such #zoning lot#.

(4) Payment option

Where the Department of Parks and Recreation determines that such tree planting would be infeasible, or in historic districts where the Landmarks Preservation Commission determines that such tree planting would not be in character with the historic district, in lieu of planting an off-site tree in an available alternative location, or in the event that planting adjacent to the #zoning lot# cannot be completed due to the season, funds equivalent to the cost of planting such tree, as established by rule of the Department of Parks and Recreation, may be deposited in an account of the City of New York. Such funds shall be dedicated to the planting of #street# trees by the City at an alternative location or, in the case of an off-season deposit, in front of the #zoning lot# at the next appropriate planting season.

26-42 - Planting Strips

LAST AMENDED
4/30/2012

In accordance with applicability requirements of underlying district regulations, the owner of the #development#, #enlargement# or #converted building# shall provide and maintain a planting strip. #Street# trees required pursuant to Section [26-41](#) shall be planted within such planting strip. Such planting strip shall be located adjacent to, and extend along, the entire length of the curb of the #street#. However, in the event that both adjoining properties have planting strips adjacent to the #front lot line#, such planting strip may be located along the #front lot line#. The width of such planting strip shall be the greatest width feasible given the required minimum paved width of the sidewalk on #street# segments upon which the #building# fronts, except that no planting strip less than six inches in width shall be required.

26-421 - Modifications of planting strip requirements

LAST AMENDED
4/30/2012

Driveways are permitted to traverse planting strips. Planting strips may be interrupted by utilities and paved areas required for bus stops.

On #zoning lots# containing #schools#, permeable pavers or permeable pavement may be substituted for grass or ground cover, provided that, beneath such permeable pavers or pavement, there is structural soil or aggregate containing at least 25 percent pore space, or other kind of engineered system that absorbs stormwater, as acceptable to the Department of Transportation. Any area improved with permeable pavers or pavement pursuant to this paragraph shall be no less than three feet in width except where necessary for compliance with the Americans with Disabilities Act.

Any #generating site# for which (i) on or before December 5, 2024, an application for #new construction affordable housing# has been filed with the Department of Buildings, (ii) on or before December 5, 2025, the Department of Buildings has approved an application for a foundation, a new #building# or an alteration based on a complete zoning analysis showing zoning compliance for such #new construction affordable housing# with the applicable rules existing prior to December 5, 2024, and (iii) on or before December 5, 2026, a #regulatory agreement# has been executed and recorded against such #generating site#, shall continue to be subject to the Inclusionary Housing Program as set forth in Sections [23-154](#) and [23-90](#), as such Sections existed prior to December 5, 2024.

Any #generating site# for which (i) on or before December 5, 2024, an application for #preservation affordable housing# has been filed with #HPD#, and (ii) on or before December 5, 2025, a #regulatory agreement# for #preservation affordable housing# has been executed and recorded against such #generating site#, shall continue to be subject to the Inclusionary Housing Program as set forth in Sections [23-154](#) and [23-90](#), as such Sections existed prior to December 5, 2024.

27-133 - Mandatory Inclusionary Housing areas

LAST AMENDED

12/5/2024

The Mandatory Inclusionary Housing Program shall apply in #Mandatory Inclusionary Housing areas#.

The Mandatory Inclusionary Housing Program shall also apply in special purpose districts when specific zoning districts or areas are defined as #Mandatory Inclusionary Housing areas# within the special purpose district.

Additionally, the Mandatory Inclusionary Housing Program shall apply as a condition of City Planning Commission approval of special permits as set forth in Section [74-06](#) (Additional Considerations for Special Permit Use and Bulk Modifications), in special purpose districts as set forth in Section [27-134](#) (Special permit approval in special purpose districts) and in waterfront areas as set forth in Section [62-831](#) (General provisions).

#Mandatory Inclusionary Housing areas#, with the applicable income mix options for each #Mandatory Inclusionary Housing area#, are listed in APPENDIX F of this Resolution.

27-134 - Special permit approval in special purpose districts

LAST AMENDED

12/5/2024

Where a special purpose district includes a provision to grant modification of #use# or #bulk# by special permit of the City Planning Commission, and an application for such special permit would allow a significant increase in permitted #residential# #floor area# where the special #floor area# requirements in #Mandatory Inclusionary Housing areas# are not otherwise applicable, the Commission, in establishing the appropriate terms and conditions for the granting of such special permit, may apply such requirements where consistent with the objectives of the Mandatory Inclusionary Housing program as set forth in Section [27-12](#) (General Provisions). However, where the Commission finds that such special permit application would facilitate significant public infrastructure or public facilities addressing needs that are not created by the proposed #development#, #enlargement# or #conversion#, or where the area affected by the special permit is eligible to receive transferred development rights pursuant to the Hudson River Park Act, as amended, the Commission may modify the requirements of Section [27-131](#) (Mandatory Inclusionary Housing).

27-14 - Methods of Providing Affordable Housing

LAST AMENDED

12/5/2024

- (a) For #UAP developments#, #affordable housing# shall be either #new construction affordable housing#, #preservation affordable housing# or a #conversion# from non-#residential# to #residential use#. For #MIH developments#, #affordable housing# shall be either #new construction affordable housing# or a #conversion# from non-#residential# to #residential use#. #Conversions# shall comply with the requirements of Section [27-10](#) (ADMINISTRATION OF AFFORDABLE HOUSING), inclusive, applicable to #new construction affordable housing#.
- (b) When determining whether #affordable housing# is #new construction affordable housing# or #preservation affordable housing#, or when making a determination as to which #building# constitutes a #UAP site#, #HPD# may separately consider each #building# on a #zoning lot#. Where any such #building# consists of two or more contiguous sections separated by walls or other barriers, #HPD# may consider all relevant facts and circumstances when determining whether to consider the sections of such #building# separately or collectively, including, but not limited to, whether such sections share systems, utilities, entrances, common areas or other common elements and whether such sections have separate deeds, ownership, tax lots, certificates of occupancy, independent entrances, independent addresses or other evidence of independent functional use.
- (c) The amount of #affordable floor area# in any #MIH site# or #UAP site# shall be determined based upon plans for such #MIH site# or #UAP site# which have been approved by the Department of Buildings and which indicate thereon the amount of #floor area# devoted to #affordable housing# and the amount of #floor area# devoted to other #residential uses#. However, for #UAP sites# where the Department of Buildings does not require #floor area# calculations, the amount of #affordable floor area# shall be determined by methods specified in the #guidelines#.
- (d) The amount of qualifying #floor area# for any #income band# in an #MIH site# or #UAP site# shall be determined by the same method as the calculation of #affordable floor area#.
- (e) #Affordable housing units# shall be either rental #affordable housing# or #homeownership affordable housing#.

- (f) An #MIH site# that is part of an #MIH zoning lot#, or a #UAP site# that is part of a #UAP zoning lot#, in which at least two-thirds of the #dwelling units# are #affordable housing units# shall be either a #building# that:
- (1) shares a common #street# entrance with another #building# on the #zoning lot# in which less than one-third of the #dwelling units# are #affordable housing units#; or
 - (2) is independent, from grade at the #street wall line# to the sky, of any other #building# on the #zoning lot# in which less than one-third of the #dwelling units# are #affordable housing units#, and such #building# shall have its primary entrance on a #street# frontage that has primary entrances for other #residential buildings#.
 - (3) #HPD# may waive the requirements of this paragraph (f) if it determines that the #buildings# on the #zoning lot# are otherwise located in a manner that does not stigmatize occupants of #affordable housing units#.
- (g) #HPD# shall have the right, in its sole discretion, to deny any #affordable housing application# proposing #preservation affordable housing#, and shall have the right, in its sole discretion, to deny any #affordable housing application# that includes #homeownership affordable housing#, #qualifying senior housing#, or a #supportive housing project#, and instead require that such #MIH site# or #UAP site# be developed with rental #affordable housing#. Pursuant to paragraph (k) of Section [27-16](#) (Requirements for MIH Sites or UAP Sites), #HPD# may adopt #guidelines# for the implementation of this paragraph (g).

27-15 - MIH Zoning Lots and UAP Zoning Lots

LAST AMENDED

The #residential# #floor area ratio# of an #MIH zoning lot# or a #UAP zoning lot# shall be determined in accordance with the provisions of Section [23-22](#) (Floor Area Regulations for R6 Through R12 Districts) applicable to #qualifying affordable housing#.

27-151 - Additional requirements for MIH developments and UAP developments

LAST AMENDED
12/5/2024

- (a) #MIH development# or #UAP development# building permits#
- (1) HPD# may issue a #permit notice# to the Department of Buildings at any time on or after the #restrictive declaration date#. The Department of Buildings may thereafter issue building permits to an #MIH development# or a #UAP development# based on the #affordable housing# or, in the case of an #MIH development#, contribution to the #affordable housing fund# described in such #permit notice#.
 - (2) If #HPD# does not receive confirmation that the #restrictive declaration# has been recorded within 45 days after the later of the #restrictive declaration date# or the date upon which #HPD# authorizes the recording of the #restrictive declaration#, #HPD# shall suspend or revoke such #permit notice#, notify the Department of Buildings of such suspension or revocation and not reinstate such #permit notice# or issue any new #permit notice# until #HPD# receives confirmation that the #restrictive declaration# has been recorded or any applicable alternate procedure has been completed. Upon receipt of notice from #HPD# that a #permit notice# has been suspended or revoked, the Department of Buildings shall suspend or revoke each building permit issued pursuant to such #permit notice# which is then in effect for any #MIH development# or #UAP development#.

- (b) #MIH development# or #UAP development# certificates of occupancy
- (1) The Department of Buildings shall not issue a permanent certificate of occupancy for any #MIH development# or #UAP development# until #HPD# has issued a #completion notice# with respect to the #affordable housing# that satisfies the requirements of this Chapter. However, where any #story# of an #MIH development# or #UAP development# contains one or more #affordable housing units#, the Department of Buildings may issue a temporary certificate of occupancy for such #story# if such temporary certificate of occupancy either includes each #affordable housing unit# located in such #story# or only includes #dwelling units# or #rooming units# that are #affordable housing units#. Nothing in the preceding sentence shall be deemed to prohibit the granting of a temporary certificate of occupancy for the standard #residential floor area# in a #UAP development# or the granting of a temporary or permanent certificate of occupancy for a #super's unit#.
 - (2) #HPD# shall not issue a #completion notice# with respect to any portion of any #MIH site# or #UAP site# unless:
 - (i) the Department of Buildings has issued temporary certificates of occupancy for all #affordable housing# described in such #completion notice# and such certificates of occupancy have not expired, been suspended or been revoked; or
 - (ii) where a #UAP site# contains #affordable housing# that had a valid certificate of occupancy on the #restrictive declaration date# and no new temporary or permanent certificate of occupancy is thereafter required for the creation of such #affordable housing#, #HPD# has determined that all renovation and repair work required by the applicable #restrictive declaration# has been completed and all obligations with respect to the creation of such #affordable housing# have been fulfilled in accordance with the applicable #restrictive declaration#.
- (c) #UAP developments# and #MIH developments# that are restricted pursuant to an #affordable housing regulatory agreement# shall not be required to comply with this Section.

27-16 - Requirements for MIH Sites or UAP Sites

LAST AMENDED
12/5/2024

#Affordable housing# in an #MIH site# or #UAP site# shall meet each of the requirements set forth in this Section for the entire #regulatory period#, except that #affordable housing# restricted pursuant to an #affordable housing regulatory agreement# shall only be required to comply with paragraphs (a) and (j) of this Section.

- (a) Location of #MIH site# or #UAP site# and #MIH zoning lot# or #UAP zoning lot#

Where an #MIH site# or #UAP site# is not located within the #MIH zoning lot# or the #UAP zoning lot#, as applicable:

- (1) the #MIH site# or #UAP site# and the #MIH zoning lot# or #UAP development#, as applicable, shall be located within the same Community District; or
- (2) the #MIH site# or #UAP site# and the #MIH zoning lot# or #UAP zoning lot#, as applicable, shall be located in adjacent Community Districts and within one-half mile of each other, measured from the perimeter of each #zoning lot#.

Outside of #UAP offsite option areas#, a #UAP site# must be located within the #UAP zoning lot#.

(b) Distribution of #affordable housing units#

In #new construction affordable housing#, where one or more of the #dwelling units# or #rooming units# in an #MIH site# or #UAP site#, other than any #super's unit#, are not #affordable housing units#:

- (1) the #affordable housing units# shall be distributed on not less than 65 percent of the #residential stories# of such #MIH site# or #UAP site#, or, if there are insufficient #affordable housing units# to comply with this requirement, the distribution of #affordable housing units# shall be as specified in the #guidelines#; and
- (2) not more than two-thirds of the #dwelling units# and #rooming units# on any #story# of such #MIH site# or #UAP site# shall be #affordable housing units#, unless not less than two-thirds of the #dwelling units# and #rooming units# on each #residential story# of such #MIH site# or #UAP site# are #affordable housing units#. #HPD# may waive such requirement for any #new construction affordable housing# that is located on an #interior lot# or #through lot# with less than 50 feet of frontage along any #street#.

Where one or more of the #dwelling units# or #rooming units#, other than any #super's unit#, are not #affordable housing units#, the #affordable housing units# shall share a common primary entrance with the other #dwelling units# or #rooming units#. However, if an #MIH site# or #UAP site# contains both #homeownership# and rental housing and no #affordable housing units# are #homeownership# housing, the distribution requirements above shall only apply to #residential stories# containing rental housing. In addition, the distribution requirements above shall not apply if all #affordable housing units# are rental #affordable housing# and all other #dwelling units# are #homeownership# housing, and shall not apply to any #affordable housing units# that are also #supportive housing units# or #affordable independent residences for seniors#.

In addition, #HPD# may waive these requirements for #affordable floor area# created in an #MIH site# or #UAP site# through #enlargement#, as specified in the #guidelines#.

#HPD# may disapprove any #building# configuration that would frustrate the intent and purpose of this Section by segregating #affordable housing units# or stigmatizing residents of such #affordable housing units#.

(c) Bedroom mix of #affordable housing units#

- (1) In #new construction affordable housing#, where one or more of the #dwelling units# in an #MIH site# or #UAP site#, other than any #super's unit#, are not #affordable housing units#, either:
 - (i) the #dwelling units# that are #affordable housing units# shall contain a bedroom mix at least proportional to the bedroom mix of the #dwelling units#, other than any #super's unit#, that are not #affordable housing units#; or
 - (ii) not less than 50 percent of the #dwelling units# that are #affordable housing units# shall contain two or more bedrooms and not less than 75 percent of the #dwelling units# that are #affordable housing units# shall contain one or more bedrooms.

However, such bedroom mix requirements shall not apply to #affordable independent residences for seniors#. #HPD# may also waive such bedroom mix requirements for any #new construction affordable housing# that is located on an #interior lot# or #through lot# with less than 50 feet of frontage along any #street#. In addition, #HPD# may waive these requirements for #affordable floor area# created in an #MIH site# or #UAP site# through #enlargement#, as specified in the #guidelines#.

- (2) Where all of the #dwelling units# in an #MIH site# or #UAP site#, other than any #super's unit#, in #new

construction affordable housing# are #affordable housing units#, the bedroom mix shall be as set forth in the #guidelines#.

- (3) #Supportive housing units# shall contain such configuration as #HPD# shall require.
 - (4) For purposes of this paragraph (c), fractions equal to or greater than one-half resulting from any calculation shall be considered to be one #dwelling unit#.
- (d) Size of #affordable housing units#
- (1) In #new construction affordable housing#, the average size of #affordable housing units# of a particular bedroom count shall be not less than the average size of #dwelling units# that are not #affordable housing units# with the same number of bedrooms, or the minimum size specified below for a #dwelling unit# of a particular bedroom count, whichever is less:
 - (i) 400 square feet of #floor area# within the perimeter walls for a zero bedroom #dwelling unit#;
 - (ii) 575 square feet of #floor area# within the perimeter walls for a one bedroom #dwelling unit#;
 - (iii) 775 square feet of #floor area# within the perimeter walls for a two bedroom #dwelling unit#; or
 - (iv) 950 square feet of #floor area# within the perimeter walls for a three bedroom #dwelling unit#.

However, these unit size requirements shall not apply to #affordable independent residences for seniors#.

#HPD# may specify the method of measuring #floor area# within #affordable housing units# in the #guidelines#, compliant with Department of Buildings practice; and

- (2) Where all of the #dwelling units# in an #MIH site# or #UAP site#, other than any #super's unit#, in #new construction affordable housing# are #affordable housing units#, such #affordable housing units# shall comply with the size requirements as set forth in the #guidelines#.
 - (3) #Supportive housing units# shall comply with the size requirements specified by #HPD#.
- (e) Records

For a period of time specified in the #guidelines#, the owner of the #affordable housing units# shall maintain all records setting forth the facts that form the basis of any affidavit submitted to #HPD#, and shall make such records available for inspection and audit by #HPD# upon request.

- (f) #Restrictive declaration#
- (1) The #restrictive declaration# shall require compliance with and shall incorporate by reference the #affordable housing application# and the applicable provisions of this Zoning Resolution and the #guidelines# and shall contain such additional terms and conditions as #HPD# deems necessary.
 - (2) The #restrictive declaration# shall require that #HPD# be provided with documentation indicating the amount of #affordable floor area#. For #new construction affordable housing# such documentation shall include, but shall not be limited to, plans meeting the requirements of paragraph (c) of Section [27-14](#) (Methods of Providing Affordable Housing).

- (3) The #restrictive declaration# shall be recorded against all tax lots comprising the portion of the #zoning lot# within which the #MIH site# or #UAP site# is located and shall set forth the obligations, running with such tax lots, of the owner and all successors in interest to provide #affordable housing# in accordance with the #affordable housing application# for the entire #regulatory period#.
- (4) Where applicable in accordance with paragraph (b) (Monthly rent) of Section [27-161](#) (Additional requirements for rental affordable housing), the #restrictive declaration# shall provide that certain obligations shall survive the #regulatory period#.

(g) Housing standards

Upon the date that #HPD# issues the #completion notice#, the #MIH site# or #UAP site# shall be free of violations of record issued by any City or State agency pursuant to the Multiple Dwelling Law, the Building Code, the Housing Maintenance Code and this Zoning Resolution, except as may otherwise be provided in the #guidelines#.

(h) Insurance

The #affordable housing# shall at all times be insured against any damage or destruction in an amount not less than the replacement value of such #affordable housing#.

(i) Duration of obligations

The obligation to provide and maintain a specified amount of #affordable housing# on an #MIH site# or #UAP site# shall run with the #zoning lot# containing such #MIH site# or #UAP site# for not less than the #regulatory period#.

(j) One #MIH site# or #UAP site# may satisfy requirements for multiple #MIH zoning lots# or #UAP zoning lots#, as applicable

Any #MIH site# or #UAP site# may contain #affordable housing# that satisfies the requirements of this Chapter, for more than one #MIH development# or #UAP development#, as applicable, provided that no #affordable floor area# shall be counted more than once in satisfying the requirements of such #MIH developments# or #UAP developments#, or for the purposes of utilizing #floor area# provisions applicable to #qualifying affordable housing# in Section [23-22](#) (Floor Area Regulations for R6 Through R12 Districts).

(k) #Guidelines#

#HPD# shall adopt and may modify #guidelines# for the implementation of the provisions of Section [27-00](#), inclusive.

27-161 - Additional requirements for rental affordable housing

LAST AMENDED
12/5/2024

The additional requirements of this Section shall apply to rental #affordable housing# for the entire #regulatory period#, except that rental #affordable housing# restricted pursuant to an #affordable housing regulatory agreement# shall not be required to comply with this Section.

(a) Tenant selection

- (1) Upon #rent-up# and any subsequent vacancy for the entire #regulatory period#, #affordable housing units# shall only be leased to and occupied by #households# that satisfy the #income bands# applicable to such unit.

- (2) A tenant may, with the prior approval of #HPD#, sublet an #affordable housing unit# for not more than a total of two years, including the term of the proposed sublease, out of the four-year period preceding the termination date of the proposed sublease. The aggregate payments made by any sublessee in any calendar month shall not exceed the #monthly rent# that could be charged to the sublessor in accordance with the #restrictive declaration#.
- (3) A #household# may rent an #affordable housing unit# that is restricted to occupancy by #households# of higher #income bands#, provided that the #household# is able to utilize rent subsidies pursuant to a rental assistance program administered by any Federal, State, or local agency or instrumentality to afford the applicable #monthly rent#.
- (4) #Affordable housing units# shall be marketed and leased in accordance with the #guidelines#.

(b) Monthly rent

- (1) Unless alternative provisions are established in the #restrictive declaration# or #guidelines#, the #restrictive declaration# shall provide that each #affordable housing unit# shall be registered with the Division of Housing and Community Renewal at the initial #monthly rent# established by #HPD# and shall thereafter remain subject to #rent stabilization# for the entire #regulatory period# and thereafter until vacancy.

However, any #affordable housing unit# of #preservation affordable housing# that is both occupied by a #grandfathered tenant# and subject to the Emergency Housing Rent Control Law on the #restrictive declaration date# shall remain subject to the Emergency Housing Rent Control Law until the first vacancy following the #restrictive declaration date# and shall thereafter be subject to #rent stabilization# as provided herein.

The #restrictive declaration# shall provide that upon each annual registration of an #affordable housing unit# with the Division of Housing and Community Renewal, the #legal regulated rent# for such #affordable housing unit# shall be registered with the Division of Housing and Community Renewal at an amount not exceeding the #maximum monthly rent#. However, the #restrictive declaration# shall provide that this requirement shall not apply to an #affordable housing unit# occupied by a #grandfathered tenant# until the first vacancy after the #restrictive declaration date#.

- (2) Unless alternative provisions are established in the #restrictive declaration# or #guidelines#, the #restrictive declaration# shall provide that the #monthly rent# charged to the tenant of any #affordable housing unit# at #initial occupancy# and in each subsequent renewal lease shall not exceed the lesser of the #maximum monthly rent# or the #legal regulated rent#. However, the #restrictive declaration# shall provide that these requirements shall not apply to an #affordable housing unit# occupied by a #grandfathered tenant#, until the first vacancy after the #restrictive declaration date#.

However, #HPD# may adopt #guidelines# to permit the #monthly rent# to exceed the #maximum monthly rent#, provided that the #monthly rent#, less rent subsidies pursuant to a rental assistance program administered by any Federal, State, or local agency or instrumentality, does not exceed the lesser of the #maximum monthly rent# or the #legal regulated rent#.

- (3) Each year after #rent-up#, in the month specified in the #restrictive declaration# or the #guidelines#, the owner of the #affordable housing units# shall submit an affidavit to #HPD# attesting that each lease or sublease of an #affordable housing unit# or renewal thereof during the preceding year complied with the applicable #monthly rent# requirements at the time of execution of the lease or sublease or renewal thereof.
- (4) For any #affordable housing unit# subject to #rent stabilization#, the applicable #restrictive declaration# shall provide that the lessor of an #affordable housing unit# shall not utilize any exemption or exclusion from any

requirement of #rent stabilization# to which such lessor might otherwise be or become entitled with respect to such #affordable housing unit#, including, but not limited to, any exemption or exclusion from the rent limits, renewal lease requirements, registration requirements, or other provisions of #rent stabilization#, due to:

- (i) the vacancy of a unit where the #legal regulated rent# exceeds a prescribed maximum amount;
- (ii) the fact that tenant income or the #legal regulated rent# exceeds prescribed maximum amounts;
- (iii) the nature of the tenant; or
- (iv) any other reason.

- (5) Unless alternative provisions are established in the #restrictive declaration# or #guidelines#, the #restrictive declaration# and each lease of an #affordable housing unit# shall contractually require the lessor of each #affordable housing unit# to grant all tenants the same rights that they would be entitled to under #rent stabilization# without regard to whether such #affordable housing unit# is statutorily subject to #rent stabilization#. If any court declares that #rent stabilization# is statutorily inapplicable to an #affordable housing unit#, such contractual rights shall thereafter continue in effect for the remainder of the #regulatory period#.
- (6) Unless alternative provisions are established in the #restrictive declaration# or #guidelines#, the #restrictive declaration# shall provide that each #affordable housing unit# that is occupied by a tenant at the end of the #regulatory period# shall thereafter remain subject to #rent stabilization# for not less than the period of time that such tenant continues to occupy such #affordable housing unit#, except that any occupied #affordable housing unit# that is subject to the Emergency Housing Rent Control Law at the end of the #regulatory period# shall remain subject to the Emergency Housing Rent Control Law until the first vacancy.

(c) Income

- (1) Each #affordable housing unit# shall be leased to and occupied by #households# of the applicable #income band# for the entire #regulatory period#, except as may be otherwise set forth in the #guidelines# with respect to internal transfers.
- (2) The owner of the #affordable housing units# shall verify the #household# income of the proposed tenant prior to leasing any vacant #affordable housing unit# in order to ensure that it is a #household# that qualifies at the #income band# applicable to such unit, except as may be otherwise set forth in the #guidelines# with respect to internal transfers.
- (3) Each year after #rent-up#, in the month specified in the #restrictive declaration# or the #guidelines#, the owner of the #affordable housing units# shall submit an affidavit to #HPD# attesting that each #household# that commenced occupancy of a vacant #affordable housing unit# during the preceding year, and each #household# that subleased an #affordable housing unit# during the preceding year, complied with the applicable income eligibility requirements at the time of #initial occupancy#.

(d) #Affordable housing application

- (1) #An #affordable housing application# shall include the building plans, state the number, bedroom mix and #income band# applicable to the #affordable housing units# to be #developed#, #converted#, or preserved, and include such additional information as #HPD# deems necessary to ensure the satisfaction of the requirements of Section [27-10](#), inclusive.
- (2) A copy of any #affordable housing application# shall be delivered, concurrently with its submission to #HPD#, to

the affected Community Board.

- (1) all of the #dwelling units#, #rooming units# and #supportive housing units# in the #UAP site#, other than any #super's unit#, shall be #affordable housing units# that are leased to and occupied by #households# within the applicable #income band# for the entire #regulatory period#;
- (2) on the #restrictive declaration date#, the average of the #legal regulated rents# for all #affordable housing units# in the #UAP site# that are occupied by #grandfathered tenants# shall not exceed 30 percent of 60 percent of the income index divided by 12;
- (3) on the #restrictive declaration date#, #HPD# shall have determined that the condition of the #UAP site# is sufficient, or will be sufficient after required improvements specified in the #affordable housing application# and the #restrictive declaration#, to ensure that, with normal maintenance and normal scheduled replacement of #capital elements#, the #affordable housing units# will provide a decent, safe and sanitary living environment for the entire #regulatory period#;
- (4) on the #restrictive declaration date#, #HPD# shall have determined either that no #capital element# is likely to require replacement within 30 years from the #restrictive declaration date# or that, with regard to any #capital element# that is likely to require replacement within 30 years from the #restrictive declaration date#, a sufficient reserve has been established to fully fund the replacement of such #capital element#;
- (5) except with the prior approval of #HPD#, #monthly rents# charged for #affordable housing units# shall not be increased to reflect the costs of any repair, renovation, rehabilitation or improvement performed in connection with qualification as a #UAP site#, even though such increases may be permitted by other laws;
- (6) proceeds from sales of offsite #affordable floor area# must be approved by #HPD# as set forth in the #guidelines# or #restrictive declaration#; and
- (7) such #affordable housing# shall comply with such additional criteria as may be specified by #HPD# in the #guidelines#.

- (b) #Homeownership affordable housing units# shall only be occupied by #eligible buyers#, and #HPD# shall establish the initial and resale prices based on the incomes of #households# in accordance with the #guidelines#. #Homeownership affordable housing# on an #MIH site# or #UAP site# shall comply with the additional requirements set forth in the #guidelines# for the entire #regulatory period#.
