These general goals include, among others, the following purposes:

- (a) to expedite the recovery of neighborhoods that have experienced physical or non-physical impacts from a severe disaster;
- (b) to enable the reconstruction and alteration of buildings damaged by a severe disaster, by removing disincentives; and
- (c) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect the City's tax revenues.

For each of the #designated recovery areas#, applicable recovery provisions will be set forth in this Chapter based on the type of impacts caused by the #severe disaster#. The #designated recovery areas# shall be listed in Appendix A of this Chapter, and the applicable time duration shall be set forth in the following table.

The maximum amount of #floor area# shall not exceed the amount of pre-existing #floor area# as it existed prior to the reconstruction, #enlargement#, relocation or alteration work or the amount permitted by the district, whichever is greater. Furthermore, no #extension# or change of #use# may create a new #non-conformance# or a new #non-compliance#, or increase the degree of existing #non-conformance# or #non-compliance# with #floor area#.

(b) Building footprint

The resulting #lot coverage# shall be less than or equal to that of the pre-existing #building or other structure# as it existed prior to the reconstruction, #enlargement#, relocation or alteration work or the amount permitted by the district, as applicable, whichever is greater. Nothing in this Section shall affect the permitted obstruction allowances set forth by the district regulations.

(c) Building height

The resulting height and setback may continue an existing #non-compliance#, provided that the height of such reconstructed, #enlarged#, relocated or altered #building or other structure# as measured from #curb level#, #base plane# or other applicable underlying datum, does not exceed the pre-existing height of such #building#, as measured from the top of the lowest floor that contains #floor area#, to the highest point of such pre-existing #building#. All permitted obstruction allowances shall be measured with respect to the modified height and setback regulations set forth in this Section.
