Words in the text or tables of this Resolution which are italicized shall be interpreted in accordance with the provisions set forth in this Section.

Abut, or abutting (2/2/11)

“Abut” is to be in contact with or join at the edge or border. “Abutting” buildings are buildings that are in contact with one another on the same or another zoning lot, except as subject to separations required for seismic load as set forth in the New York City Building Code. A building may also abut a lot line. In addition, for buildings existing prior to February 2, 2011, such existing building shall be considered abutting if it is within six inches of a lot line or another building.

Accessory use, or accessory (4/30/12)

An "accessory use":

(a) is a use conducted on the same zoning lot as the principal use to which it is related (whether located within the same or an accessory building or other structure, or as an accessory use of land), except that, where specifically provided in the applicable district regulations or elsewhere in this Resolution, accessory docks, off-street parking or off-street loading need not be located on the same zoning lot; and

(b) is a use which is clearly incidental to, and customarily found in connection with, such principal use; and

(c) is either in the same ownership as such principal use, or is operated and maintained on the same zoning lot substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal use.

When "accessory" is used in the text, it shall have the same meaning as accessory use.

An accessory use includes:

(1) Living or sleeping accommodations for servants in connection with a use listed in Use Groups 1 and 2;

(2) Living or sleeping accommodations for caretakers in connection with any use listed in Use Groups 3 through 18 inclusive, provided that:
(i) no building contains more than one living or sleeping accommodation for caretakers;

(ii) no such living or sleeping accommodation shall exceed 1,200 square feet of floor area;

(iii) the owner shall sign a Restrictive Declaration that any such caretaker will provide maintenance and/or repair services, and containing a list of services to be performed by such caretaker. Such Restrictive Declaration shall be recorded in the Office of the City Register, or, where applicable, the County Clerk's Office, of the county where the building is located. A copy of such declaration shall be provided to the Department of Buildings;

(iv) in C6-2M, C6-4M, M1-5M, M1-6M, M1-5A and M1-5B Districts, no living or sleeping accommodation for caretakers is permitted in any building which contains a residential use or a joint living-work quarters for artists; and

(v) such living or sleeping accommodation shall not be considered a residential use or cause a building to be considered a mixed building.

(3) Living or sleeping accommodations in connection with commercial or manufacturing uses, including living or sleeping accommodations in connection with a studio listed in Use Group 9, provided that:

(i) no building contains more than two kitchens; and

(ii) no such living or sleeping accommodations are located in a C7, C8 or Manufacturing District.

(4) Keeping of domestic animals, but not for sale or hire. A commercial stable or kennel is not an accessory use.

(5) Swimming pools not located within a building listed in Use Group 1 or 2, provided that:

(i) the use of such pools shall be restricted to occupants of the principal use and guests for whom no admission or membership fees are charged;

(ii) if accessory to a use listed in Use Group 2, except if such use is a single-family or two-family residence, the edge of the pool shall be located not less than 100 feet from any lot line;

(iii) if accessory to a use listed in Use Group 1 or Use Group 2, which use is a single-family residence or two-family residence, the edge of the pool shall be located not less than five feet from any lot line, except that such minimum distance between the edge of the pool and any side lot line may be not less than three feet in the case of lots less than 25 feet in width, providing that it is screened from adjoining lots by a six foot high continuous solid opaque fence along the side lot line adjacent to such pool. In the event that such pool is
located between 50 and five feet from any **rear lot line** or **side lot line**, it shall be screened by a continuous fence supplemented with a strip of densely planted trees or shrubs at least four feet high at the time of planting along such **rear lot line** to such pool; and

(iv) illumination of such pools shall be limited to underwater lighting.

Swimming pool clubs are not **accessory uses**.

(6) Domestic or agricultural storage in a barn, shed, tool room, or similar **building or other structure**.

Adult establishment (2/2/11)

(1) Adult Establishment: An "adult establishment" is a commercial establishment which is or includes an adult book store, adult eating or drinking establishment, adult theater, or other adult commercial establishment, or any combination thereof, as defined below:

(a) An adult book store is a book store that offers "printed or visual material" for sale or rent to customers where a "substantial portion" of its stock-in-trade of "printed or visual material" consists of "adult printed or visual material," defined as "printed or visual material" characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas";

(b) An adult eating or drinking establishment is an eating or drinking establishment which regularly features in any portion of such establishment any one or more of the following:

   (1) live performances which are characterized by an emphasis on "specified anatomical areas" or "specified sexual activities"; or

   (2) films, motion pictures, videocassettes, slides or other photographic reproductions which are characterized by an emphasis upon the depiction or description of "specified sexual activities" or "specified anatomical areas"; or

   (3) employees who, as part of their employment, regularly expose to patrons "specified anatomical areas"; and

which is not customarily open to the general public during such features because it excludes or restricts minors.

(c) An adult theater is a commercial establishment which regularly features one or more of the following:

   (1) films, motion pictures, videocassettes, slides or similar photographic reproductions characterized by an emphasis on the depiction or description of "specified sexual activities" or "specified anatomical areas"; or
live performances characterized by an emphasis on "specified anatomical areas" or "specified sexual activities"; and

which is not customarily open to the general public during such features because it excludes or restricts minors.

An adult theater shall include commercial establishments where such materials or performances are viewed from one or more individual enclosures.

(d) An other adult commercial establishment is a facility -- other than an adult book store, adult eating or drinking establishment, adult theater, commercial studio, or business or trade school -- which features employees who as part of their employment, regularly expose to patrons "specified anatomical areas" and which is not customarily open to the general public during such features because it excludes or restricts minors.

(2) Defined Terms:

(a) For purposes of paragraph (1)(a), "printed or visual materials" are books, magazines, or other printed matter, including product packaging or wrapping, or photographs, films, motion pictures, video cassettes, slides or other visual matter;

(b) For purposes of paragraph (1)(a), (b) and (c), "specified sexual activities" are: (i) human genitals in a state of sexual stimulation or arousal; (ii) actual or simulated acts of human masturbation, sexual intercourse or sodomy; or (iii) fondling or other erotic touching of human genitals, pubic region, buttock, anus or female breast.

(d) For the purpose of determining under paragraph (1)(a) whether a "substantial portion" of a book store’s stock-in-trade of "printed or visual" material consists of "adult printed or visual material", the following factors shall be considered: (i) the amount of stock of "adult printed or visual material" accessible to customers as compared to the total stock of "printed or visual material" accessible to customers in the establishment; and (ii) the amount of floor area and cellar space accessible to customers containing stock of "adult printed or visual material"; and (iii) the amount of floor area and cellar space accessible to customers containing stock of "adult printed or visual material" as compared to the amount of floor area and cellar space accessible to customers containing "printed or visual material" which is not "adult printed or visual material," provided that "printed or visual material" which is not "adult printed
or visual material" (hereinafter for purposes of this paragraph "other printed or visual material") shall not be considered stock-in-trade for purposes of this paragraph where such store has one or more of the following features:

(aa) An interior configuration and layout which requires customers to pass through an area of the store with "adult printed or visual material" in order to access an area of the store with "other printed or visual material;"

(bb) One or more individual enclosures where adult movies or live performances are available for viewing by customers;

(cc) A method of operation which requires customer transactions with respect to "other printed or visual material" to be made in an area of the store which includes "adult printed or visual material;"

(dd) A method of operation under which "other printed or visual material" is offered for sale only and "adult printed or visual material" is offered for sale or rental;

(ff) A method of operation which excludes or restricts minors from the store as a whole or from any section of the store with "other printed or visual material;"

(gg) A sign that advertises the availability of "adult printed or visual material" which is disproportionate in size relative to a sign that advertises the availability of "other printed or visual material," when compared with the proportions of "adult" and other "printed or visual materials" offered for sale or rent in the store, or the proportions of floor area or cellar space accessible to customers containing stock of "adult" and "other printed or visual materials;"

(hh) A window display in which the number of products or area of display of "adult printed or visual material" is disproportionate in size relative to the number of products or area of display of "other printed or visual material," when compared with the proportions of adult and "other printed or visual materials" offered for sale or rent in the store, or the proportions of floor area or cellar space accessible to customers containing stock of "adult" and "other printed or visual materials;"

(ii) Other features relating to configuration and layout or method of operation, as set forth in rules adopted by the Commissioner of Buildings, which the Commissioner has determined render the sale or rental of "adult printed or visual material" a substantial purpose of the
business conducted in such store. Such rules shall provide for the scheduled implementation of the terms thereof to commercial establishments in existence as of October 31, 2001, as necessary.

(e) For the purposes of paragraph (1)(b), an "eating or drinking establishment" includes:

(i) any portion of a commercial establishment within which food or beverages are offered for purchase, or are available to or are consumed by customers or patrons; and

Adult physical culture establishments (3/22/16)

An "adult physical culture establishment," is any establishment, club or business by whatever name designated which offers or advertises or is equipped or arranged so as to provide as part of its services, massages, body rubs, alcohol rubs, baths or other similar treatment, by members of the opposite sex, except for activities which are excluded below or defined under physical culture or health establishment in Section 12-10 and which are, therefore, not included within the definition of an adult physical culture establishment:

Affordable independent residence for seniors (3/22/16)

An “affordable independent residence for seniors” is a building or portion thereof, containing residences, in which at least 90 percent of the dwelling units allocated to affordable independent residences for seniors are each occupied by at least one person who is 62 years of age or over; where, except for a super’s unit, all of the dwelling units allocated to affordable independent residences for seniors are income-restricted housing units for households with incomes at or below 80 percent of the income index and used for class A occupancy as defined in the New York State Multiple Dwelling Law. For the purposes of this definition, “super’s unit” and “income index” shall be as defined in Section 23-911 (General definitions).

An affordable independent residence for seniors may consist of one or more buildings on the same or contiguous zoning lots, or on lots which would be contiguous but for their separation by a street, and shall contain related accessory social and welfare facilities primarily for residents, such as cafeterias or dining halls, community rooms, workshops and other essential service facilities, which may also be made available to the community. Floor space in an amount not less than four percent of the total floor area of such affordable independent residence for seniors shall be allocated to such accessory facilities. Such floor space may occupy floor area or cellar space, and may include indoor recreation space provided in accordance with Section 28-21 (Required Recreation Space) for Quality Housing buildings. In no event shall the floor space occupied by lobbies, passageways, storage space or other spaces normally provided in residential buildings be attributed to the floor area of the accessory social and welfare facilities.

An affordable independent residence for seniors shall also include a building used, enlarged or developed prior to March 22, 2016, as a “non-profit residence for the elderly”.

Any temporary or final certificate of occupancy issued after March 22, 2016, for a building or portion thereof to be used as an affordable independent residence for seniors shall state that such building or portion thereof shall be used as an affordable independent residence for seniors, notwithstanding the fact that a legally binding restriction on household income for income-restricted housing units may have expired and shall state that such certificate of occupancy may be amended or superseded to reflect that the building or portion thereof may be used other than as an affordable independent residence for seniors only in accordance with the provisions of this Zoning Resolution.

Aggregate width of street walls (2/2/11)

The "aggregate width of street walls" at any given level is the sum of the maximum widths of all street walls of a building that are within 50 feet of a street line. The width of a street wall is the length of the street line from which, when viewed directly from above, lines perpendicular to the street line may be drawn to such street wall.
AGGREGATE WIDTH OF STREET WALLS

Alterations, incidental or to alter incidentally (12/15/61)

"Incidental alterations" are:

(a) Changes or replacements in the non-structural parts of a building or other structure, without limitation to the following examples:

(1) alteration of interior partitions to improve livability in a non-conforming residential building, provided that no additional dwelling units are created thereby;

(2) a minor addition on the exterior of a residential building, such as an open porch;
(3) alteration of interior non-load-bearing partitions in all other types of buildings or other structures;

(4) replacement of, or minor changes in, the capacity of utility pipes, ducts or conduits; or

(b) Changes or replacements in the structural parts of a building or other structure, limited to the following examples or others of similar character or extent:

(1) making windows or doors in exterior walls;

(2) replacement of building facades;

(3) strengthening the load-bearing capacity, in not more than 10 percent of the total floor area, to permit the accommodation of a specialized unit of machinery or equipment. To "alter incidentally" is to make an incidental alteration.

Apartment hotel — see Hotel, apartment

Arcade (2/2/11)

An "arcade" is a continuous covered space fronting on and open to a street or publicly accessible open area, provided in accordance with the provisions set forth in Section 37-80.

Artist (4/27/76)

An "artist" is a person so certified by the New York City Department of Cultural Affairs.

Attached (building) (2/2/11)

A building shall be considered “attached” when it abuts two lot lines other than a street line, or another building or buildings other than a semi-detached building.

Automotive service station (2/2/11)

An "automotive service station" is a building or other structure or an open use on a zoning lot, or portion thereof, used exclusively for the storage and sale of gasoline or other motor fuels and for any uses accessory thereto.

The sale of lubricants, accessories, or supplies, the lubrication of motor vehicles, the minor
adjustment or repair of motor vehicles with hand tools only, or the occasional washing of motor
vehicles are permitted accessory uses.

A public parking lot or public parking garage is not a permitted accessory use.

Base flood elevation (6/30/89)

The "base flood elevation" is the level in feet of the flood having a one percent chance of being
equalled or exceeded in any given year, as indicated on the Flood Insurance Rate Map
prepared by the Federal Emergency Management Agency.

Base plane (3/22/16)

The "base plane" is a plane from which the height of a building or other structure is
measured as specified in certain Sections. For buildings, portions of buildings with street
walls at least 15 feet in width, or building segments within 100 feet of a street line, the level
of the base plane is any level between curb level and street wall line level. Beyond 100 feet
of a street line, the level of the base plane is the average elevation of the final grade
adjoining the building or building segment, determined in the manner prescribed by the New
York City Building Code for adjoining grade elevation. In either case, in the flood zone, either
the base flood elevation may be the level of the base plane or building height may be
measured from the flood-resistant construction elevation, as provided in Article VI, Chapter
4. For the purposes of this definition, abutting buildings on a single zoning lot may be
considered a single building. In addition, the following regulations shall apply:

(a) Within 100 feet of a street line:

(1) The level of the base plane for a building or building segment without a
street wall shall be determined by the average elevation of the final grade
adjoining such building or building segment.

(2) Where a base plane other than curb level is established, the average
elevation of the final grade adjoining the street wall of the building or
building segment, excluding the entrance to a garage within the street wall,
shall not be lower than the level of the base plane, unless the base plane is
also the base flood elevation.

(3) Where the average elevation of the final grade adjoining the street wall of the
building, excluding the entrance to a garage within the street wall, is more
than two feet below curb level, the level of the base plane shall be the
elevation of such final grade, unless the base plane is also the base flood
elevation. This paragraph shall not apply to buildings developed before
June 30, 1989, in R2X, R3, R4 or R5 Districts. Furthermore, this paragraph
shall not apply to buildings in C1 or C2 Districts mapped within R2X, R3, R4
or R5 Districts, or in C3 or C4-1 Districts, unless such buildings are located on waterfront blocks.

(4) As an option, on sites which slope from the street wall line level to the rear wall line level by at least five percent to the horizontal, the level of the base plane may extend in a sloping plane from such street wall line level to such rear wall line level. When a sloping base plane is thus established, the average elevation of the final grade at the rear wall line shall not be lower than the rear wall line level.

(b) For all buildings, where base planes of different elevations apply to different portions of a building, only that portion of the building to which such base plane applies may be used to determine such base plane.

(c) For buildings located partially within and partially beyond 100 feet of a street line, or where corner lot or through lot regulations subject different portions of a building to base planes of different elevations, separate base planes may be determined for each such portion of the building or, as an option, the elevation of each such base plane may be multiplied by the percentage of the total lot coverage of the building to which such base plane applies. The sum of the products thus obtained may be the elevation of the adjusted base plane applicable to such building.

Basement (10/25/93)

A "basement", except where a base plane is used to determine building height, is a story (or portion of a story) partly below curb level, with at least one-half of its height (measured from floor to ceiling) above curb level. On through lots, the curb level nearest to a story (or portion of a story) shall be used to determine whether such story (or portion of a story) is a basement.

Where a base plane is used to determine building height, a basement is a story (or portion of a story) partly below the base plane, with at least one-half its height (measured from floor to ceiling) above the base plane.

In addition, the following rules shall apply:

(a) When a sloping base plane is established, a basement is a story (or portion of a story) partly below the street wall line level, with at least one-half its height (measured from floor to ceiling) above the street wall line level used to establish such base plane. On through lots, the street wall line level nearest to a story shall be used to determine whether such story or portion of a story is a basement.

(b) All of the floor space with at least one-half its height (measured from floor to ceiling) above curb level shall be considered to be a basement where, subsequent to December 5, 1990, the level of any yard except that portion of a yard in front of the
entrance to a garage on a **zoning lot** is lowered below the level of the **base plane**.

**Block (12/15/61)**

A "block" is a tract of land bounded by:

(a) **streets**;

(b) **public parks**;

(c) railroad rights-of-way, when located at or above ground level but not including sidings or spurs in the same ownership as the **zoning lot**;

(d) airport boundaries;

(e) pierhead lines (or shore lines where no pierhead lines have been established); or

(f) corporate boundary lines of New York City.

**Boatel (12/15/61)**

A "boatel" is a **building** or group of **buildings** which:

(a) contains living or sleeping accommodations used primarily for transient occupancy; and

(b) is immediately accessible by boat.

**Building (2/2/11)**

A "building" is any structure which:

(a) is located within the **lot lines** of a **zoning lot**;

(b) is permanently affixed to the land;

(c) has one or more floors and a roof;

(d) is bounded by open area or **fire walls**;

(e) has at least one **primary entrance**;

(f) provides all the vertical circulation and exit systems required for such **building** by the New York City Building Code without reliance on other **buildings**, including required stairs and elevators; and
contains all the fire protection systems required for such building by the New York City Building Code without reliance on other buildings, including fire suppression or fire alarm systems.

The provisions of this Resolution that use the term building shall apply to any structure existing prior to February 2, 2011, that complies with paragraphs (a) through (e) of this definition.

A building shall not include such structures as billboards, fences, or radio towers, or structures with interior surfaces not normally accessible for human use, such as gas tanks, smoke stacks or similar structures.

A building may, for example, consist of a detached single-family residence, an attached townhouse on an individual zoning lot, an attached townhouse separated by fire walls from abutting townhouses on a shared zoning lot, a group of townhouses not separated by fire walls or lot lines, an apartment house, an office building or a factory.

(Building) designed for residential use — see Designed for residential use

Building or other structure (12/15/61)

A "building or other structure" includes any building or any other structure of any kind.

Building segment (12/5/90)

A "building segment" is a portion of a building where such building consists of two or more contiguous portions, each comprised of one or more dwelling units having a separate residential entrance or entrances serving only those dwelling units within such portion. Building segments may share a common cellar or parking facility. However, a building segment may not be located above another building segment.

Bulk (2/2/11)

"Bulk" is the term used to describe the size of buildings or other structures, and their relationships to each other and to open areas and lot lines, and therefore includes:

(a) the size (including height and floor area) of buildings or other structures;

(b) the area of the zoning lot upon which a building is located, and the number of dwelling units or rooming units within a building in relation to the area of the zoning lot;
(c) the shape of buildings or other structures;

(d) the location of exterior walls of buildings or other structures in relation to lot lines, to other walls of the same building, to legally required windows, or to other buildings or other structures; and

(e) all open areas relating to buildings or other structures and their relationship thereto.

Car sharing vehicle (9/29/10)

A “car sharing vehicle” is a vehicle maintained and owned or leased by a car sharing organization which is available for use by its members. Membership shall mean that individuals have been pre-approved to use such vehicles and need not be approved by the car sharing organization at the time of proposed use. Membership must be open to the public and shall only be denied based upon driving record, credit record or other legitimate business need of the car sharing organization. Vehicles must be made available to members for periods of use as short as one hour. The car sharing organization must provide all legally required insurance as part of the membership.

Vehicles shall be reserved by members through a self-service reservation system which is available at all times. A car sharing vehicle shall be located in a parking facility that is accessible to members of the car sharing organization at all times. No employees or agents of the car sharing organization shall provide services to members or conduct business transactions with members within such parking facility. Attended parking facilities may be serviced by a parking attendant unaffiliated with any car sharing organization. A parking facility containing car sharing vehicles shall be securely separated from all other portions of a building containing residences.

A car sharing vehicle shall be no more than 216 inches in length and shall bear a decal that provides the name of the car sharing organization. The decal must be clearly visible from the outside of the car sharing vehicle and must be either:

(a) located on the driver’s side door or passenger’s side door of the car sharing vehicle and at least 30 square inches in area; or

(b) located in the lower left corner of the rear windshield of the car sharing vehicle.

The decal shall be at least one square inch in area and contain the letters “CSV” in lettering at least 11/32 of an inch in height and the name of the car sharing organization in lettering at least 5/32 of an inch in height. All lettering shall be fully opaque and shall highly contrast with the background color of the decal.

All car sharing vehicles shall bear a decal pursuant to the provisions of paragraph (a) or (b) of this Section within 60 days of September 29, 2010.
A "cellar," except where a base plane is used to determine building height, is a space wholly or partly below curb level, with more than one-half its height (measured from floor to ceiling) below curb level. On through lots, the curb level nearest to such space shall be used to determine whether such space is a cellar.

Where a base plane is used to determine building height, a cellar is a space wholly or partly below the base plane, with more than one-half its height (measured from floor to ceiling) below the base plane.

In addition, the following rules shall apply:

(a) When a sloping base plane is established, a cellar is a space wholly or partly below the street wall line level, with more than one-half its height (measured from floor to ceiling) below the street wall line level used to establish such base plane. On through lots, the street wall line level nearest to such space shall be used to determine whether such space is a cellar.

(b) All of the floor space with at least one-half its height (measured from floor to ceiling) above curb level shall be considered to be a basement where, subsequent to December 5, 1990, the level of any yard except that portion of a yard in front of the entrance to a garage on a zoning lot is lowered below the level of the base plane.

A "commercial" use is any use listed in Use Groups 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 or 16.

A "commercial building" is a building used only for a commercial use.

A "Commercial District" includes any district whose designation begins with the letter "C."

For example, a "C4 District" includes any district whose designation begins with the symbol "C4."

Community facility (2/2/11)
A "community facility" **use** is any **use** listed in Use Group 3 or 4.

Community facility building (12/15/61)

A "community facility building" is a **building** used only for a **community facility use**.

Completely enclosed (building)

A "completely enclosed" **building** is a **building** separated on all sides from the adjacent open area, or from other **buildings or other structures**, by a permanent roof and by exterior walls or party walls, pierced only by windows or entrances or exit doors normally provided for the accommodation of persons, goods or vehicles.

Conversion, or to convert (2/2/11)

A “conversion” is a change of **use** between the following categories of **uses**: **residential**, **community facility**, **commercial** and **manufacturing**. Therefore, the change of **use** within one category is not a **conversion**. However, a **conversion** shall also include any alteration within the **residential** portion of an existing **building** that increases the number of **rooming units** in a **building**, or the number of **dwelling units** in a **building**.

To "convert" is to create a **conversion**.

Corner lot — see Lot, corner

Court (12/15/61)

A "court" is either an **inner court** or an **outer court**.

Court, depth of outer (12/15/61)

The "depth of outer court" is the maximum horizontal distance between the opening of an **outer court** and the wall opposite such opening, measured perpendicular to the direction of the **outer court** opening. The opening of an **outer court** shall be considered the shortest imaginary line which can be drawn between any intersection of a **court** wall with another wall, and the opposite **court** wall.
Court, inner (12/15/61)

An "inner court" is any open area, other than a yard or portion thereof, which is unobstructed from its lowest level to the sky and which is bounded by either:

(a) building walls; or

(b) building walls and one or more lot lines other than a front lot line; or

Court, outer (12/15/61)

An "outer court" is any open area, other than a yard or portion thereof, which is unobstructed from its lowest level to the sky and which, except for one opening upon:

(a) a front lot line;

(b) a front yard;

(c) a rear yard; or

(d) any open area along a rear lot line, or along a side lot line having a width or depth of at least 30 feet, and which open area extends along the entire length of such rear or side lot line; and

is bounded by either building walls, or building walls and one or more lot lines other than a front lot line.

Court recess, inner (12/15/61)

An "inner court recess" is any portion of an inner court which can not be included within the single largest horizontal rectangle which may be inscribed within such inner court.
INNER COURT RECESS

Court recess, outer (12/15/61)

An "outer court recess" is any portion of an outer court which, when viewed directly from above, cannot be covered by imaginary lines drawn perpendicular to a line drawn across the outer court opening.
OUTER COURT RECESS

Court, width of outer (12/15/61)

The "width of outer court" is the minimum horizontal dimension of an outer court, excluding an outer court recess, measured parallel to the opening of such outer court.

Covered pedestrian space (6/12/96)

A "covered pedestrian space" is an enclosed space for public use on a zoning lot, permitted by a special permit of the City Planning Commission pursuant to Section 74-87, et seq.
Curb level (10/25/93)

"Curb level" is the mean level of the curb adjoining a zoning lot. On corner lots, curb level is the average of the mean levels of the adjoining curbs on intersecting streets, except that, for the purpose of regulating and determining the level of yards, or other open areas on corner lots, the curb level is the highest of the mean levels of the curbs on the intersecting streets. Where through lot regulations are applicable to any portion of a corner lot, or for any through lot, the height and setback regulations based upon curb level shall apply separately on each street on which such through lot portion or through lot fronts. On a through lot, for purposes of establishing the level of a rear yard equivalent, except when adjoining and extending along the full length of the street line, the curb level shall be the mean of the levels of the curbs on those portions of the streets on which such through lot fronts. Where on a through lot such rear yard equivalent is adjoining and extending along the full length of the street line, the height of the rear yard equivalent shall be the curb level of the adjoining street. Where through lot regulations and interior lot regulations are applicable to portions of a zoning lot, for purposes of establishing the level of the rear yard equivalent or rear yard, curb level shall be the mean of the levels of the curbs on that portion of each street on which such portions of the zoning lot front.

For the purposes of determining a base plane, "curb level" is the mean level at that portion of the curb adjoining a zoning lot from which, when viewed directly from above, lines perpendicular to the curb may be drawn to a street wall. On corner lots, curb level is the average of the mean levels of such portions of the curbs on intersecting streets. On through lots, curb level is determined separately for each street frontage to a distance midway between such streets.

For buildings with three or more dwelling units in R6, R7, R8, R9 and R10 Districts developed or enlarged prior to February 2, 2011, such attic space providing structural headroom of eight feet or more shall be considered floor area. For buildings with three or more dwelling units in R6, R7, R8, R9 and R10 Districts developed or enlarged after February 2, 2011, any attic space shall be considered floor area;
(e) floor space in gallerias, interior balconies, mezzanines or bridges;

2A, R2A, R2X, R3, R4 or R5 Districts, except that:

(i) in R2A Districts, floor area within such residences shall include only floor space in excess of 300 square feet for one such space; and

(ii) in all R1-2A Districts, and in R3, R4A and R4-1 Districts in lower density growth management areas, floor area within such residences shall include only floor space in excess of 300 square feet for one such space and in excess of 500 square feet for two such spaces;

(4) within a group parking facility with five or more required spaces accessory to buildings containing residences in R3, R4 or R5 Districts that is located in a space with a ceiling height that is more than six feet above the base plane, or, if the base plane is a sloping base plane, six feet above the street wall line level used to establish such base plane. On through lots with sloping base planes, the street wall line level closest to a street shall be used to determine whether such space is floor area;

(5) which is located more than 23 feet above curb level in any other building;

(6) which is unenclosed and covered by a building or other structure containing residential use for at least 50 percent of such accessory off-street parking space in R2A, R2X, R3, R4 and R5 Districts. For the purposes of such calculation, exterior *building* walls on adjoining *zoning lots abutting* an open or roofed terrace shall not constitute an enclosure. A sun control device that is accessible for purposes other than for maintenance shall be considered a balcony; and

(o) any other floor space not specifically excluded.

However, the *floor area* of a *building* shall not include:

1. *cellar* space, except where such space is used for dwelling purposes. *Cellar* space used for retailing shall be included for the purpose of calculating requirements for *accessory* off-street parking spaces, *accessory* bicycle parking spaces and *accessory* off-street loading berths;

2. elevator or stair bulkheads, *accessory* water tanks, or cooling towers, except that such exclusions shall not apply in R2A Districts;

For the purposes of calculating floor space used for mechanical equipment, *building segments* on a single *zoning lot* may be considered to be separate *buildings*;

(9) except in R1-2A, R2A, R2X, R3, R4 and R5 Districts, the lowest *story* (whether a *basement* or otherwise) of a *residential building*, provided that:

   (i) such *building* contains not more than two *stories* above such *story*;

   (ii) such *story* and the *story* immediately above it are portions of the same *dwelling unit*;

   (iii) such *story* is used as a furnace room, utility room, auxiliary recreation room, or for other purposes for which *basements* are customarily used; and

   (iv) such *story* has at least one-half its height below the level of the ground along at least one side of such *building*, or such *story* contains a garage;

(10) floor space in exterior balconies or in open or roofed terraces provided that not more than 67 percent of the perimeter of such balcony or terrace is enclosed and provided that a parapet not higher than 3 feet, 8 inches, or a railing not less than 50 percent open and not higher than 4 feet, 6 inches, shall not constitute an enclosure. For the purposes of such calculation, exterior *building* walls on adjoining *zoning lots* abutting an open or roofed terrace shall not constitute an enclosure. A sun control device that is accessible for purposes other than for maintenance shall be considered a balcony;

(11) floor space within stairwells:

      (2) such stairwells are used as a required means of egress from such *residences*;

      (3) such stairwells have a minimum width of 44 inches;
(4) such floor space excluded from floor area shall be limited to a maximum of eight inches of stair and landing width measured along the length of the stairwell enclosure at each floor; and

(5) where such stairwells serve non-residential uses on any floor, or are located within multi-level dwelling units, the entire floor space within such stairwells on such floors shall count as floor area;

(ii) at each floor of buildings developed or enlarged after April 28, 2015, that are 420 feet or greater in height, provided that:

(1) such stairwells serve a space with an occupancy group other than Group R-2, as classified in the New York City Building Code, that is located at or above a height of 420 feet; and

(2) such floor space excluded from floor area shall be limited to:

   (aa) the 25 percent of stair and landing width required by the New York City Building Code which is provided in addition to the stair and landing widths required by such Code for means of egress; or

   (bb) the one stairwell required by the New York City Building Code which is provided in addition to the stairwells required by such Code for means of egress. For the purposes of this paragraph, such additional stairwell shall include the stair and landings as well as any walls enclosing the stair and landings;

(12) exterior wall thickness, up to eight inches:

   (i) where such wall thickness is added to the exterior face of a building wall existing on April 30, 2012, provided the added wall thickness has a thermal resistance (R-value) of at least 1.5 per inch; or

   (ii) where such wall thickness is part of an exterior wall constructed after April 30, 2012, equal to the number of inches by which the wall’s total thickness exceeds eight inches, provided the above-grade exterior walls of the building envelope are more energy efficient than required by the New York City Energy Conservation Code (NYCECC) as determined by the following:

     (1) the area-weighted average U-factor of all opaque above-grade wall assemblies shall be no greater than 80 percent of the area-weighted average U-factor determined by using the prescribed requirements of the NYCECC; and

     (2) the area-weighted average U-factor of all above-grade exterior wall assemblies, including vertical fenestrations, shall be no more than 90
percent of the area-weighted average U-factor determined by using the prescribed requirements of the NYCECC. For the purposes of calculating the area-weighted average U-factor, the amount of fenestration shall equal the amount of fenestration provided in such exterior walls, or an amount equal to the maximum fenestration area referenced in the NYCECC for the calculation of the baseline energy code requirement, whichever is less;

For the purposes of calculating compliance with this paragraph, (12)(ii), the term "above-grade" shall only include those portions of walls located above the grade adjoining such wall. Compliance with this paragraph shall be demonstrated to the Department of Buildings at the time of issuance of the building permit for such exterior walls. The total area of wall thickness excluded from the calculation of floor area shall be reflected on the next issued temporary or final certificate of occupancy for the building, as well as all subsequent certificates of occupancy;

(13) floor space in a rooftop greenhouse permitted pursuant to Section 75-01 (Certification for Rooftop Greenhouses);

(14) floor space on a sun control device, where such space is inaccessible other than for maintenance.

Floor area ratio (2/2/11)

"Floor area ratio" is the total floor area on a zoning lot, divided by the lot area of that zoning lot. If two or more buildings are located on the same zoning lot, the floor area ratio is the sum of their floor areas divided by the lot area. (For example, a zoning lot of 10,000 square feet with a building containing 20,000 square feet of floor area has a floor area ratio of 2.0, and a zoning lot of 20,000 square feet with two buildings containing a total of 40,000 square feet of floor area also has a floor area ratio of 2.0)

A "group parking facility" is a building or other structure or an open use on a zoning lot or portion thereof used for the storage of motor vehicles, that contains more than one parking space, has access to the street common to all spaces and, if accessory to a residential use, is designed to serve more than one dwelling unit.

A group parking facility shall include, but is not limited to, the following:

(a) an open parking area;
(b) parking spaces included within, or on the roof of, a building not primarily used for parking; or
(c) a building or buildings used primarily for parking, including a group of individual garages.

A group parking facility shall not include in R3, R4 or R5 Districts, individual parking garages within buildings containing residences or individual unenclosed accessory parking spaces adjacent to residences which have access from a street, a private street or a driveway common to all the spaces.

Height factor (3/22/16)

The "height factor" of a zoning lot is equal to the total floor area of a building divided by its lot coverage. If two or more buildings are located on the same zoning lot, the height factor is the sum of their floor areas divided by the sum of their lot coverages.

For example, a zoning lot with a residential building containing 60,000 square feet of floor area and a lot coverage of 5,000 square feet has a height factor of 12, and a zoning lot with two residential buildings containing a total of 80,000 square feet of floor area and 10,000
square feet of total *lot coverage* has a *height factor* of 8.

In computing a *height factor*, a fraction of one-half or more may be considered a whole number, and smaller fractions shall be disregarded.

(a) A "home occupation" is an *accessory use* which:

(1) is clearly incidental to or secondary to the *residential use* of a *dwelling unit* or *rooming unit*;

(2) is carried on within a *dwelling unit*, *rooming unit*, or *accessory building* by one or more occupants of such *dwelling unit* or *rooming unit*, except that, in connection with the practice of a profession, one person not residing in such *dwelling unit* or *rooming unit* may be employed; and

(3) occupies not more than 25 percent of the total *floor area* of such *dwelling unit* or *rooming unit* and in no event more than 500 square feet of *floor area*.

(b) In connection with the operation of a *home occupation*, it shall not be permitted:

(1) to sell articles produced elsewhere than on the premises;

(2) to have exterior displays, or a display of goods visible from the outside;

(3) to store materials or products outside of a principal or *accessory building or other structure*;

(4) to display, in an R1 or R2 District, a nameplate or other *sign* except as permitted in connection with the practice of a profession;

(5) to make external structural alterations which are not customary for *residences*; or

(6) to produce offensive noise, vibration, smoke, dust or other particulate matter, odorous matter, heat, humidity, glare, or other objectionable effects.

(c) *Home occupations* include, but are not limited to:

- fine arts studios
- professional offices

(a) has three or more **dwelling units** or **rooming units**;
(b) has one or more common entrances serving all such units; and
(c) provides one or more of the following services: housekeeping, telephone, desk, or bellhop service, or the furnishing or laundering of linens.

1. under single fee ownership or alternate ownership arrangements as set forth in the **zoning lot** definition in Section 12-10 (DEFINITIONS) for all **zoning lots** comprising the **large-scale community facility development**; or

2. under single fee, alternate or separate ownership, either:

   (i) pursuant to an urban renewal plan for a designated urban renewal area containing such **zoning lots**; or

A “large-scale development” is either a **large-scale community facility development**, a **large-scale general development** or a **large-scale residential development**.

Large-scale general development (2/2/11)

A "large-scale general development" contains one or more **buildings** on a single **zoning lot** or two or more **zoning lots** that are contiguous or would be contiguous but for their separation by a **street** or a **street** intersection and is not either a **large-scale residential development** or a **large-scale community facility development**; and:

(a) has or will have an area of at least 1.5 acres;

(b) has been or is to be used, **developed** or **enlarged** as a unit:

1. under single fee ownership or alternate ownership arrangements as set forth in the **zoning lot** definition in Section 12-10 (DEFINITIONS) for all **zoning lots** comprising the **large-scale general development**; or

(c) shall be located in whole or in part in any Commercial or Manufacturing District, subject to the restrictions of paragraph (a)(1) of Section 74-743 (Special provisions for bulk modification).

Such zoning lots may include any land occupied by buildings existing at the time an application is submitted to the City Planning Commission under the provisions of Article VII, Chapter 4, provided that such buildings form an integral part of the large-scale general development, and provided that there is no bulk distribution from a zoning lot containing such existing buildings. In C5 and C6 Districts, however, a large-scale general development having a minimum lot area of five acres may include a zoning lot that contains an existing building that is not integrally related to the other parts of the large-scale general development, provided that such building covers less than 15 percent of the lot area of the large-scale general development and provided that there is no bulk distribution from a zoning lot containing such existing building.

Large-scale residential development (2/2/11)

A "large-scale residential development" contains one or more buildings on a single zoning lot or two or more zoning lots that are contiguous or would be contiguous but for their separation by a street or a street intersection, used predominantly for residential uses and:

(a) has or will have an area of at least 1.5 acres and a total of at least three principal buildings, or an area of at least three acres and a total of at least 500 dwelling units;

(b) has been or is to be developed as a unit:

Such continuing care retirement communities may be located in one or more *buildings* on the same or contiguous *zoning lots*, or on lots which would be contiguous but for their separation by a *street*. All such continuing care retirement communities shall:

1. offer a life care contract that includes unlimited long-term care services along with housing for independent living and *residential* services and amenities; and

2. include fewer independent living *dwelling units* than the combined number of assisted living *dwelling units* or *rooming units* and nursing home beds on such same or contiguous *zoning lots*, or on lots which would be contiguous but for their separation by a *street*. For the purposes of this calculation, the number of such assisted living *dwelling units* or *rooming units* shall be the number of such units in the State-licensed assisted living facilities or assisted living *residences*; and the number of such nursing home beds shall be the number of authorized State-licensed nursing home beds, as applicable. For the purposes of this definition, the term “rooming units” shall be as defined in the New York City Housing Maintenance Code.

If a continuing care retirement community does not comply with conditions (1) and (2) above, the independent living *dwelling units* shall be considered a *residential use*.

In the event that any **street line** is a curve at its point of intersection with a **lot line** other than a **street line**, the tangent to the curve at that point shall be considered the direction of the **street line**. The portion of such **zoning lot** subject to the regulations for **corner lots** is that portion bounded by the intersecting **street line** and lines parallel to and 100 feet from each intersecting **street line**. Any remaining portion of a **corner lot** shall be subject to the regulations for a **through lot** or for an **interior lot**, whichever is applicable.

Lot coverage (3/22/16)

"Lot coverage" is that portion of a **zoning lot** which, when viewed directly from above, would be covered by a **building** or any part of a **building**. However, for purposes of computing a **height factor**, any portion of such **building** covered by a roof which qualifies as **open space**, or any terrace, balcony, breeze way, or porch or portion thereof not included in the **floor area** of a **building**, shall not be included in **lot coverage**.

For example, a **zoning lot** of 20,000 square feet consists of one portion, 100 feet by 100 feet, as a **corner lot** portion, and another portion, 100 feet by 100 feet, as an **interior lot** portion. In a district that allows 70 percent coverage of the **interior lot** portion, that portion can have a **lot coverage** of 7,000 square feet, while the **corner lot** portion which is allowed 100 percent coverage can have a **lot coverage** of 10,000 square feet.

When a **height factor** is not computed for a **residential building** or **residential** portion of a **building**, obstructions permitted pursuant to Section 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) shall not be included in **lot coverage**, except that the portion of any balcony which does not project from the face of the **building** shall be counted as **lot coverage**.

Lot depth (12/15/61)

"Lot depth" is the mean horizontal distance between the **front lot line** and **rear lot line** of a **zoning lot**. In the case of a **corner lot**, the **lot depth** is the greater of the mean horizontal distances between the **front lot lines** and the respective **side lot line** opposite each.

A "side lot line" is any **lot line** which is not a **front lot line** or a **rear lot line**.

Lot, through (12/15/61)

Any portion of a **through lot** which is not or could not be bounded by two such opposite **street lines** and two straight lines intersecting such **street lines** shall be subject to the regulations for an **interior lot**.
THROUGH LOT

Lot width (12/15/61)

A **non-conforming use** shall result from failure to conform to the applicable district regulations on either permitted Use Groups or performance standards.

A **non-conformity** is a failure by a **non-conforming use** to conform to any one of such applicable **use** regulations.

However, no existing **use** shall be deemed **non-conforming**, nor shall a **non-conformity** be deemed to exist, solely because of any of the following:

(a) the existence of less than the required **accessory** off-street parking spaces or loading
berths;

(b) the existence of non-conforming accessory signs; or

(c) the existence of conditions in violation of the provisions of either Sections 32-41 and 32-42, relating to Supplementary Use Regulations, or Sections 32-51 and 32-52 relating to Special Provisions Applying along District Boundaries, or Sections 42-41, 42-42, 42-44 and 42-45, relating to Supplementary Use Regulations and Special Provisions Applying along District Boundaries.

"Open space" is that part of a zoning lot, including courts or yards, which is open and unobstructed from its lowest level to the sky and is accessible to and usable by all persons occupying a dwelling unit or a rooming unit on the zoning lot.

Open space may, however, include areas covered by roofs, the total area of which is less than 10 percent of the unroofed or uncovered area of a zoning lot, provided that such roofed area is not enclosed on more than one side, or on more than 10 percent of the perimeter of the roofed area, whichever is greater.

Open space may be provided on the roof of:

(a) a community facility building;
(b) a **building** containing **residences**, provided such roof area is not above that portion of such **building** that contains **dwelling units** or **rooming units**;

(c) a **non-residential building**, other than a **community facility building**, provided such **non-residential building abuts** other **buildings**, any one of which contains **residences**.

3. be directly accessible by a passageway from a **building**, or by a ramp (with a grade of less than 10 percent) from a **building, yard, court or street**, except that in R8 or R9 Districts such roof area need not be accessible to occupants and is therefore exempt from this requirement; and

The "open space ratio" of a **zoning lot** is the number of square feet of **open space** on the **zoning lot**, expressed as a percentage of the **floor area** on that **zoning lot**. (For example, if for a particular **zoning lot** an **open space ratio** of 20 is required, 20,000 square feet of **floor area** in the **building** would necessitate 4,000 square feet of **open space** on the **zoning lot**; or, if 6,000 square feet of **lot area** were in **open space**, 30,000 square feet of **floor area** could be on that **zoning lot**.) Each square foot of **open space** per 100 square feet of **floor area** is referred to as one point.

In any event, the supports or uprights on which such **sign** is supported shall not be included in determining the **surface area** of a **sign**.

When two **signs** of the same shape and dimensions are mounted or displayed back-to-back and parallel on a single free-standing structural frame, only one of such **signs** shall be included in computing the total **surface area** of the two **signs**.

When a double-faced **sign** projects from the wall of a **building**, and its two sides are located not more than 28 inches apart at the widest point and not more than 18 inches apart at the narrowest point, and display identical writing or other representation, the **surface area** shall include only one of the sides. Yard (9/19/73)

A "yard" is that portion of a zoning lot extending open and unobstructed from the lowest level to the sky along the entire length of a lot line, and from the lot line for a depth or width set forth in the applicable district yard regulations.
Where a street setback line is shown on the City Map the yard extends along the entire length of the street setback line, and from the street setback line for a depth or width set forth in the applicable district yard regulations.

Yard equivalent, rear (12/15/61)

A "rear yard equivalent" is an open area which may be required on a through lot as an alternative to a required rear yard.

Yard, front (12/15/61)

A "front yard" is a yard extending along the full length of a front lot line.

In the case of a corner lot, any yard extending along the full length of a street line shall be considered a front yard.

Yard line, front (12/15/61)

A "front yard line" is a line drawn parallel to a front lot line at a distance therefrom equal to the depth of a required front yard.

Yard line, front, level (of) (12/15/61)

The "front yard line level" is the mean level of that portion of the front yard line from which, when viewed directly from above, lines perpendicular to the front yard line may be drawn to a street wall. On corner lots, the front yard line level is the mean of the front yard line levels.
A "rear yard line" is a line drawn parallel to a *rear lot line* at a distance therefrom equal to the depth of a required *rear yard*.

A "rear yard" is a *yard* extending for the full length of a *rear lot line*.

Yard line, rear (12/15/61)

Yard, rear (12/15/61)
A "side yard" is a yard extending along a side lot line from the required front yard (or from the front lot line if no front yard is required) to the required rear yard (or to the rear lot line, if no rear yard is required). In the case of a corner lot, any yard which is not a front yard shall be considered a side yard.

A "zero lot line building" is a building that abuts only one side lot line and does not abut another building on the same or an adjoining zoning lot and which is surrounded on all sides but one by yards, other open area or street lines on the zoning lot. However, accessory buildings permitted pursuant to Section 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents) may be permitted to abut a zero lot line building on an adjoining zoning lot.

A "zoning lot" is either:

(a) a lot of record existing on December 15, 1961, or any applicable subsequent amendment thereto;

(b) a tract of land, either unsubdivided or consisting of two or more contiguous lots of record, located within a single block, which, on December 15, 1961, or any applicable subsequent amendment thereto, was in single ownership;

(c) a tract of land, either unsubdivided or consisting of two or more lots of record contiguous for a minimum of 10 linear feet, located within a single block, which at the time of filing for a building permit (or, if no building permit is required, at the time of the filing for a certificate of occupancy) is under single fee ownership and with respect to which each party having any interest therein is a party in interest (as defined herein); or

(d) a tract of land, either unsubdivided or consisting of two or more lots of record contiguous for a minimum of 10 linear feet, located within a single block, which at the time of filing for a building permit (or, if no building permit is required, at the time of filing for a certificate of occupancy) is declared to be a tract of land to be treated as one zoning lot for the purpose of this Resolution. Such declaration shall be made in one written Declaration of Restrictions covering all of such tract of land or in separate written Declarations of Restrictions covering parts of such tract of land and which in the aggregate cover the entire tract of land comprising the zoning lot. Any Declaration of Restrictions or Declarations of Restrictions which individually or collectively cover a tract of land are referred to herein as "Declarations." Each Declaration shall be
executed by each party in interest (as defined herein) in the portion of such tract of land covered by such Declaration (excepting any such party as shall have waived its right to execute such Declaration in a written instrument executed by such party in recordable form and recorded at or prior to the recording of the Declaration). Each Declaration and waiver of right to execute a Declaration shall be recorded in the Conveyances Section of the Office of the City Register or, if applicable, the County Clerk's Office of the county in which such tract of land is located, against each lot of record constituting a portion of the land covered by such Declaration.

A zoning lot, therefore, may or may not coincide with a lot as shown on the official tax map of the City of New York, or on any recorded subdivision plat or deed.

Parcels within City-owned tracts of land located in Broad Channel within the boundaries of Community Board 14 in the Borough of Queens that were numerically identified for leasing purposes on maps filed in the Office of Borough President prior to December 15, 1961, may be considered as individual lots of record as of September 10, 1981.

(e) For purposes of the provisions of paragraph (c) hereof:

(1) prior to issuing a building permit or a certificate of occupancy, as the case may be, the Department of Buildings shall be furnished with a certificate issued to the applicant therefor by a title insurance company licensed to do business in the State of New York showing that each party having any interest in the subject tract of land is a party in interest (as defined herein); except that where the City of New York is a fee owner, such certificate may be issued by the New York City Law Department; and

(2) a "party in interest" in the tract of land shall include only (W) the fee owner thereof, (X) the holder of any enforceable recorded interest superior to that of the fee owner and which could result in such holder obtaining possession of all or substantially all of such tract of land, (Y) the holder of any enforceable recorded interest in all or substantially all of such tract of land which would be adversely affected by the development thereof and (Z) the holder of any unrecorded interest in all or substantially all of such tract of land which would be superior to and adversely affected by the development thereof and which would be disclosed by a physical inspection of the tract of land.

(f) For purposes of the provisions of paragraph (d) hereof:

(1) prior to issuing a building permit or a certificate of occupancy, as the case may be, the Department of Buildings shall be furnished with a certificate issued to the applicant therefor by a title insurance company licensed to do business in the State of New York showing that each party in interest (excepting those parties waiving their respective rights to join therein, as set forth in this definition) has executed the Declaration and that the same, as well as each
such waiver, have been duly recorded; except that where the City of New York is a fee owner, such certificate may be issued by the New York City Law Department;

(2) the Buildings Department, in issuing a building permit for construction of a building or other structure on the zoning lot declared pursuant to paragraph (d) above or, if no building permit is required, in issuing a certificate of occupancy for such building or other structure, shall accept an application for same from and, if all conditions for issuance of same are fulfilled, shall issue same to any party to the Declaration;

(3) by their execution and recording of a Declaration, the parties to the Declaration, and all parties who have waived their respective rights to execute such Declaration, shall be deemed to have agreed that no breach by any party to the Declaration, or any agreement ancillary thereto, shall have any effect on the treatment of the tract of land covered by the Declaration as one zoning lot for purposes of this Resolution and such tract of land shall be treated as one zoning lot unless such zoning lot is subdivided in accordance with the provisions of this Resolution; and

(4) a "party in interest" in the portion of the tract of land covered by a Declaration shall include only (W) the fee owner or owners thereof, (X) the holder of any enforceable recorded interest in all or part thereof which would be superior to the Declaration and which could result in such holder obtaining possession of any portion of such tract of land, (Y) the holder of any enforceable recorded interest in all or part thereof which would be adversely affected by the Declaration, and (Z) the holder of any unrecorded interest in all or part thereof which would be superior to and adversely affected by the Declaration and which would be disclosed by a physical inspection of the portion of the tract of land covered by the Declaration.

A zoning lot may be subdivided into two or more zoning lots, provided that all resulting zoning lots and all buildings thereon shall comply with all of the applicable provisions of this Resolution. If such zoning lot, however, is occupied by a non-complying building, such zoning lot may be subdivided provided such subdivision does not create a new non-compliance or increase the degree of non-compliance of such building.

Where ownership of a zoning lot or portion thereof was effected prior to the effective date of this amendment, as evidenced by an attorney's affidavit, any development, enlargement or alteration on such zoning lot may be based upon such prior effected ownership as then defined in the zoning lot definition of Section 12-10. Such prior leasehold agreements shall be duly recorded prior to August 1, 1978.

Prior to the issuance of any permit for a development or enlargement pursuant to this Resolution a complete metes and bounds of the zoning lot, the tax lot number, the block number and the ownership of the zoning lot as set forth in paragraphs (a), (b), (c) and (d) herein shall be recorded by the applicant in the Conveyances Section of the Office of the City
Register (or, if applicable, the County Clerk’s Office) of the county in which the said **zoning lot** is located. The **zoning lot** definition in effect prior to the effective date of this amendment shall continue to apply to Board of Standards and Appeals approvals in effect at the effective date hereof.

**Zoning maps (12/15/61)**

"Zoning maps" are the maps incorporated into the provisions of this Resolution in accordance with the provisions of Section 11-14 (Incorporation of Maps).
